SUMMER SUCCESS RESOURCES

BERKELEY COUNTY SCHOOLS
FOUNDED 1862

LEARNING NEVER TAKES A BREAK!

As summer begins across Berkeley County, it's important to recognize that meaningful learning can continue beyond the classroom walls. Summer presents a special opportunity for families to spark curiosity, foster creativity, and explore new interests together.

Here in Berkeley County, the season offers countless chances to learn and grow—from catching lightning bugs on a summer night, splashing in local pools and rivers, to celebrating Independence Day and enjoying the Berkeley County Youth Fair. These moments, simple as they may seem, are rich with educational value and personal growth.

To support you in keeping the joy of learning alive this summer, we are proud to share our Summer Learning Toolkit. Inside, you'll find engaging activities, reading suggestions, creative projects, and nature-based exploration ideas that are both fun and enriching. Whether you're reading a new book under a shady tree, conducting a backyard science experiment, or discovering history in a nearby park, every experience becomes a chance to learn.

As parents and caregivers, your involvement is one of the greatest influences on your child's educational journey. This summer, we invite you to be active partners in their learning. With each question asked, each discovery made, and every challenge overcome, you help unlock their potential and build a foundation for lifelong success.

Let's work together to make this summer a season of growth, connection, and discovery—so that when school resumes in the fall, our students return not only refreshed, but also inspired and ready to thrive.

Thank you for being a vital part of our Berkeley County Schools family.

Yours in Education,

Ryan S. Saxe, Superintendent

TRAVEL GUIDE:

Week 1

Monday

Choose a book to read. What was the most important thing the character did? Find that part in the story.

Tuesday

Who is your best friend? Write a sentence telling them why you like them.

Wednesday

Bake cookies with your child. Talk about measurements. After the cookies are done, ask your child to make equal shares with different number groups. “If we have four people, how many cookies will each person get?”

Thursday

There are 4 seasons in a year. Discuss the seasons and how they are each different with a family member.

Friday

Draw a picture of something outside.

TRAVEL GUIDE:

Week 2

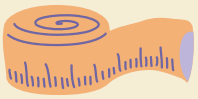
Monday

Choose a book to read. Draw a picture to show what happened in the book. What detail does your picture show?

Tuesday

What is your favorite food? Why? (Write two sentences)

Wednesday



Throw and Measure.
Go outside and throw 5 different objects, such as a football, frisbee, bouncy ball, shoe, and a hat. Measure the distance each object was thrown in inches. Create a bar graph to display your data. Which object did you throw the farthest? How much farther did you throw one object when compared to another object? Repeat using 5 different objects.

Thursday

Clap to the beat of your favorite song.

Friday

What's your favorite animal? Where does that animal live? How does that animal protect itself? Draw a picture of your animal in its habitat.

TRAVEL GUIDE: Week 3

Monday

Find a book to read. How are the characters like you? How are they different?

OOPS!

Tuesday

Dance with a family member to their favorite song. Now have them dance with you to your favorite song.

Wednesday

Everyone can learn from their mistakes. Ask a family member to tell you about a mistake that they made and what they should have done differently. Tell about a mistake that you have made.

Thursday

Play a card game or a board game of your choice.

Friday

War of Dice: two players

Material: dice, bingo chips or markers of some sort

Rules: Players take turns rolling the dice and adding the numbers represented by the dots on their cubes. The player who has the highest sum takes a bingo chip or marker The winner is the first player to get ten bingo chips. Play 3 or more rounds.

TRAVEL GUIDE:
Week 4

Monday

Choose a book to read. What is the title? After reading the book, do you think this is a good title? Why or why not?

Tuesday

Sing a simple song at a fast tempo. Now try to sing it again at a slow tempo.

Wednesday

Living things have 5 senses in order to survive. Living things use tasting, touching, smelling, seeing, and hearing to understand the world around them. Talk to your family about how you use your 5 senses. Draw a picture of something you can smell, another picture of something you can see, and another picture of something you can hear.

Thursday

What is something you would like to learn more about? Why?

Friday

We have rules everywhere that we go. Write three rules you have at home, two you had in school, and one that you have when you are in a store.

BCS SUMMER Library

Full STEAM Ahead With Literacy on the Summer!

Explore reading and writing skills while incorporating children's literature and hands-on STEM activities! Students will also receive free books to take home.

Dates:

9:30 AM - 11:00 AM
June 17
June 24
June 26
July 1
July 3
July 8
July 10

Locations:

Bedington Elementary
Berkeley Heights Elementary
Gerrardstown Elementary
Hedgesville Elementary
Rosemont Elementary
Valley View Elementary

FOR INCOMING KINDERGARTEN - 3RD GRADE STUDENTS

LEARNING & PLAYING!

Dive into these summer activities and make learning part of the fun!

Outdoor Adventure Quest

Make the outdoors your classroom! Head to a local park or your own backyard and embark on a scavenger hunt adventure. Create a checklist with items like pinecones, butterflies, or uniquely shaped leaves. Encourage children to draw or write about their discoveries to combine exploration with creative expression.

Tales and Trails Picnic

Bring books and bonding together with a Storytime Picnic. Pack a blanket, some snacks, and your favorite books to share. Children can read aloud, listen to stories, or even act out scenes. It's a fun way to encourage literacy while soaking up the sunshine.

Crafty Creations

Spark creativity with easy, hands-on art projects using materials you already have at home. Try making paper plate animals or crafting homemade musical instruments. These activities not only entertain but also support fine motor skill development and artistic exploration.

INTERMEDIATE LEVEL RESOURCES (3-5)

ONLINE RESOURCES

Reading Coach

Hour of Code

Khan Academy

Cool Math Games

FUN & LEARNING COMBINED!

This summer, combine learning and fun to keep young minds engaged and growing!

Volcano Ventures and Crystal Creations

Ignite curiosity with hands-on science! Try creating a homemade volcano or growing crystals to explore basic scientific principles. These simple experiments inspire kids to ask questions and think critically about the world around them.

Summer Reading Quest

Keep the pages turning with a summer reading challenge! Encourage children to set goals for the number of books they'll read and explore a variety of genres, from mysteries to biographies. It's a fun way to expand their horizons and foster a lifelong love of reading.

Cooking Up Fractions

Turn your kitchen into a math classroom! Invite kids to help measure ingredients and practice fractions while following a recipe. This activity not only builds math skills but also teaches the importance of following directions—and you get a tasty treat at the end!

Hometown Explorers

Step into history by visiting local museums or historical sites. Exploring your community's heritage offers kids a chance to connect their learning to the real world and sparks a sense of curiosity about the past.

MIDDLE SCHOOL LEVEL RESOURCES (6-8)

ONLINE RESOURCES

Hour of Code

Canva Design Skills

99 Math

MIDDLE SCHOOL LEVEL RESOURCES

These activities are designed to challenge young minds while keeping summer fun and fulfilling!

Explorer's Research Quest

Get ready to explore the world through research! Encourage students to pick a topic they're passionate about and dive deep to create a presentation or report. This activity builds research, critical thinking, and organizational skills—plus, it's a great opportunity to learn something new!

Novel Navigators

Let the pages come alive in a summer book club! Students can read the same book and meet to discuss characters, themes, and plot twists. This promotes literacy, enhances comprehension, and builds communication skills as they share ideas and opinions.

Code Breakers

Unlock the world of programming with beginner-friendly coding platforms like Scratch or Code.org. Students will learn the basics of coding while developing problem-solving and logical reasoning skills that will serve them in many areas of life.

Heart of Service

Give back to the community while learning valuable life skills. Encourage students to engage in local volunteer opportunities. This fosters empathy, social responsibility, and a sense of connection to their community.

LEARNING BEYOND CLASSROOM WALLS

Travel Journals

- Have children document their trips with drawings, stories, or collected souvenirs to enhance writing and observational skills
- Create themed journal pages (wildlife spotted, new foods tried, favorite activities)
- Take daily photos and add captions describing the experience
- Include ticket stubs, pressed flowers, or other small mementos
- Encourage reflection questions: "What surprised me today?" or "What did I learn?"

Cultural Exploration

- Learn about the history and traditions of the places you visit
- Try local foods and discuss differences and similarities to your own culture
- Visit museums, historical sites, and cultural centers with age-appropriate scavenger hunts
- Learn 5-10 basic phrases in the local language
- Research local holidays or celebrations happening during your visit

Map Reading

- Involve children in planning routes and reading maps to develop geography skills
- Create a symbol-based legend for younger children
- Calculate distances and estimate travel times
- Compare modern GPS navigation with traditional paper maps
- Create a personal map of the vacation spot, highlighting favorite locations

Math on the Go

- Convert currency if traveling internationally
- Calculate trip budgets and track expenses
- Measure and compare temperatures, distances in different measurement systems
- Calculate time zone differences
- Estimate and measure distances walked each day

Science Exploration

- Visit science centers, aquariums, or nature preserves
- Collect and identify local rocks, shells, or plants (where permitted)
- Observe weather patterns and compare them to your home climate
- Study local ecosystems and wildlife habitats
- Participate in citizen science projects like wildlife counting

Reading Adventures

- Read books about your destination before and during travel
- Visit local libraries or bookstores
- Create vacation reading challenges with rewards
- Start a travel-themed book club with friends or family
- Compare fictional portrayals of locations with reality

HOLIDAY THEMED ACTIVITIES

JUNETEENTH

Historical Understanding

- Create a timeline showing key events from slavery to emancipation
- Research and present on important African American leaders during the Civil War and Reconstruction eras
- Write diary entries from different perspectives about what freedom meant in 1865

Cultural Connections

- Learn about traditional Juneteenth celebrations and foods
- Study and recreate African American art styles and discuss their cultural significance
- Learn and practice traditional songs that celebrate freedom

Storytelling & Expression

- Write poems or short stories about freedom and equality
- Create "I Have a Dream" vision boards for a more just future
- Design comic strips telling the story of Juneteenth for younger children

WEST VIRGINIA DAY

State Symbols Scavenger Hunt

- Learn about state symbols and find representations in your community, or create drawings of them
- Create a state symbols bingo card with facts about each symbol
- Make a West Virginia state flag and discuss its design elements
- Create a state wildflower garden with black-eyed Susans and rhododendrons
- Design a "Why I Love West Virginia" poster featuring state symbols

Local History Projects

- Research and present on significant events or figures in West Virginia's history
- Create a digital or physical map highlighting important historical sites in Berkeley County
- Interview community elders about changes they've seen in West Virginia
- Visit local historical sites and create travel brochures
- Make a West Virginia history trivia game to play with family and friends

Mountain State Exploration

- Study West Virginia's unique geography and natural resources
- Create papier-mâché models of the Appalachian Mountains
- Learn about coal mining and other industries important to the state
- Explore West Virginia's biodiversity through nature walks and journaling
- Cook traditional Appalachian recipes and discuss food heritage

FOURTH OF JULY

Patriotic Crafts

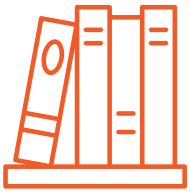
- Create American flags using construction paper and discuss the significance of the colors and symbols
- Make patriotic wind socks using red, white, and blue streamers
- Design Independence Day cards for veterans or active military
- Create star-spangled mason jar lanterns with tissue paper and glue
- Craft patriotic friendship bracelets to exchange with friends

History Lessons

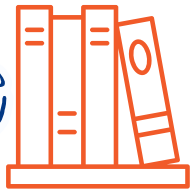
- Read stories or watch age-appropriate documentaries about the Declaration of Independence and discuss its importance
- Create a timeline of key events leading to American independence
- Role-play the signing of the Declaration of Independence
- Write a "Modern Declaration" - what rights and freedoms are important to students today?
- Design trading cards featuring the founding fathers and revolutionary heroes

Science with Fireworks

- Explore the chemistry behind fireworks through safe, supervised experiments like creating colorful reactions with baking soda and vinegar
- Make erupting "fireworks in a jar" using oil, water, and food coloring
- Create fizzy patriotic chalk bombs (baking soda, vinegar, and chalk powder)
- Study the science of light and color through prism experiments
- Discuss fire safety and the physics of projectiles



READING LOG



Book #	Title	Author	Reflection

SUMMER BUCKET LIST IDEAS

- [ ] Go for a hike
- [ ] Visit a local park
- [ ] Chase fireflies at night
- [ ] Go camping—outside or in your living room!
- [ ] Visit a farmers market
- [ ] Play a round of mini golf
- [ ] Learn a new skill, like drawing, coding, or crafting
- [ ] Have a water balloon fight
- [ ] Try a new sport or hobby, like tennis or swimming
- [ ] Keep a journal to reflect on your favorite memories
- [ ] Stargaze and identify constellations
- [ ] Pick berries at a local farm.
- [ ] Plant a small garden and watch it grow over the summer
- [ ] Host an outdoor movie night with a sheet and projector
- [ ] Volunteer for a local cause, like a food bank or animal shelter
- [ ] Create a vision board for the next school year
- [ ] Have a screen-free day to reconnect with nature or hobbies
- [ ] Practice mindfulness by meditating or doing yoga
- [ ] Build a fort
- [ ] Try geocaching for a treasure hunt experience

SUMMER SAFETY REMINDERS

SAFETY FIRST!

HEALTHY BODIES= SAFE BODIES

Vaping increases risk of lung damage, chronic bronchitis, and even hospitalization for respiratory issues.

Vape aerosols are not just “harmless water vapor” as they contain chemicals like formaldehyde and heavy metals that can damage lungs.

.

INTERNET SAFETY

- **Protect personal information:** Remind kids not to share their full name, address, school name, phone number, or passwords online.
- **Think before you post:** Teach them that anything shared online can be permanent—even messages or photos.
- **Be cautious with strangers:** Explain that people online may not always be who they say they are and to never meet someone from the internet in person without a trusted adult.
- **Use privacy settings:** Parents-activate parental controls
- **Tell a trusted adult:** Reinforce that they should talk to a parent, teacher, or other trusted adult if something online makes them feel uncomfortable or unsafe.
- **Be kind and respectful:** Remind them that the rules of kindness and respect apply online too—don’t engage in or tolerate cyberbullying.

SATYING SAFE IN OUTDOOR SPACES

- **The Buddy System**: Encourage kids to stay with a friend or sibling when playing outside or walking anywhere.
- **"No, Go, Yell, Tell!"**: If someone makes them feel unsafe—say "NO!", run away, yell loudly, and tell a trusted adult right away.
- **Don't Keep Secrets**: No adult should ever ask a child to keep a secret that makes them uncomfortable.
- **Code Word:** Set a family “code word” that a trusted adult must use if they’re ever sent to pick up your child unexpectedly.
-

WATER SAFETY

- **Always swim with adult supervision:** Children should never swim alone or without a responsible adult watching closely.
- **Wear life jackets near open water**: Life jackets are essential when boating, kayaking, or playing near lakes, rivers, or oceans.
- **Follow pool rules:** No running near the pool, no diving in shallow water, and listen to lifeguards.
- **Learn to swim**: Enroll kids in swimming lessons to help them feel confident and stay safer in the water.
- **Safety Around Water:** Watch for edges, drains and pool covers. Fences around pools should be locked. Teach kids to stay away from drains and suction outlets in pools and hot tubs.

Monday - Friday

Tuscarora Elementary
2000 Tavern Road
Martinsburg, WV 25401
Breakfast: 8:00-9:00 am
Lunch: 11:00-11:45 am

***There will be no meal service on Thursday, June 19th in observance of Juneteenth Day.**

SUMMER FOOD PROGRAM

A nutritious meal is important for children to learn, play and remain active during the summer months.
Remember, Hunger Doesn't Take a Summer Vacation!

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the State or local Agency that administers the program or contact USDA through the Telecommunications Relay Service at 711 (voice and TTY). Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at How to File a Program Discrimination Complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Mail Stop 9410, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.
