OCEAN CITY SCHOOL DISTRICT

August 1, 2024

Dear Ocean City School District families,

I am honored to introduce myself as the new superintendent of Ocean City School District (OCSD). I am eager to embark on this educational journey with you, and am grateful to be joining a vibrant community that values its schools and is dedicated to our students' success. I appreciate the Ocean City Board of Education members and the OCSD staff for already making me feel so welcome.

I look forward to supporting students and staff as the superintendent, while bringing a wealth of experience in educational leadership that I'm excited to share. Before joining OCSD, I was the superintendent and principal in the Boonton Township School District for more than nine years. I also was a building principal in other districts for more than 10 years.

My educational path began when I attended Fordham University on a full academic and athletic grant, earning a bachelor's degree in history. I continued my education at Montclair State University and received a master's degree in educational administration and supervision, and then went on to Seton Hall University to earn a doctoral degree in k-12 administration.

I believe in the power of collaboration and the importance of building strong partnerships between our schools, families and the community. Together, we can foster an enriching and supportive educational environment that encourages curiosity, innovation and an appreciation for lifelong learning. I am dedicated to empowering our administration and staff to be the catalysts for student achievement. By working together, we will ensure every student succeeds regardless of ability level.

In addition, I believe the community looks to us to give its young people the start in life they deserve, and to train the next generation of the local and broader workforce. I look forward to forging relationships throughout the community and building on our strong tradition of excellence while working to become the bridge between Ocean City and its schools.

As I look around our district, I see the emblem of the red raider everywhere and am reminded of the swift strength and independence this symbol represents. It is this same strength that will remain a hallmark of our schools and all who inhabit them.

With Red Raider pride,

Christian Angelillo, Ed.D.
Superintendent, Ocean City School District
