MESSAGE FROM MRS. HARTFORD

Solar Eclipse: Monday August 8th, A partial Solar Eclipse is expected to be visible in our area around 3:13. We have ordered solar eclipse glasses for all students and they will be given out that afternoon. Please consider that some children may be on the school buses during this time. The students will have their glasses but may not have supervision while on the bus. You may prefer to pick them up at school prior to the eclipse time to both ensure supervision and to celebrate the rare event together.
