

Balloons over Broadway Family Competition

Dear Parents,

As November quickly approaches, it is almost time for the Macy's Thanksgiving Day parade! I have an optional family project, if you and your family would like to participate! Each family (there could be multiple floats!) that would like to participate will build their own Macy's Thanksgiving Day parade float out of shoeboxes, cereal boxes, balloons, craft supplies, and whatever you have at home! This can be a fun family activity, if you would like to participate. Floats should be about the size of 1-2 shoeboxes. Floats must have at least one balloon attached, and it should be on wheels! Here are some ideas!

Mrs. Harris will give ideas to all Discovery classes this week.

Please bring floats to school on Nov. 15. We will have a parade on Nov. 16! There might be prizes for the best ones!

Happy building!

Mrs. Harris
