To the parents and guardians of our sixth grade students,

My name is Willow Smith, and I have the honor of introducing myself as your student's new writing teacher!

I am so excited to get to know your student, and guide them through engaging learning opportunities to help them grow & develop into efficient writers! My mentor teacher, Brittany Ferland, will be aiding me in this process as I begin to grasp what having my own classroom and curriculum is like.

I have been studying Elementary Education, grades K-8 at the University of Maine Augusta for 3 years now. While completing my degree, I have worked within RSU10 for the past 4 school years as an Ed Tech, supporting students in the general education and special education classroom setting. Most recently, I have found my way back to MVMS after working with Alternative Education high school students in our district. Through this experience, I have learned so much about connecting with students on an individual level, while meeting their unique needs. I am ready to apply the knowledge I have gained throughout my journey as a new educator.

I enjoy traveling with my fiancé, reading, spending time with family, friends and my students! If you would like to contact me, my information can be found on this page.

Sincerely,

Miss Smith
