## 1ST AND 2ND GRADE VISIT

### MARTIN LIVESTOCK

On January 8th, Bennett County Elementary 1st and 2nd grade students went on a mini field trip to Martin Livestock. Students watched the cattle enter the sale barn, were weighed, and then exited the sale barn. Needless to say, they had a lot of questions that coincided with their STEM class (Science, Technology, Engineering, and Math). The science behind the field trip had many students asking questions about the animal's behaviors in the barn and the color and size of the livestock. The technology discussion related to the scale and how it had to be precise and registrar with the computers that Janelle Waln was running. When the animals are pinned up, before and after the sale, cover the Engineering component of STEM. Then finally the price and weight involved the Math aspect.

Another conversation that came about was the jobs that each employee had to make the sale barn run effectively. Many students had never been to the sale barn before and said they would like to go again. Some students had been there and talked about their experiences with their families.

Mrs. Byrne, BCES STEM Teacher
