Through the implementation of standards-based instruction, students

Reuben Elementary School strives to produce lifelong learners who will cultivate independent learning skills, foster creative problem-solving strategies, and nurture a sense of responsibility while honoring the diversity among their peers.

Located in a rural area, Reuben Elementary School serves approximately 150 students from prekindergarten to fifth grade. The school has instituted a daily intervention/enrichment period at each grade level, ensuring that all students receive tailored support based on data-driven assessments. This program, facilitated by both classroom teachers and interventionists, occurs during regular school hours.

Teachers employ a comprehensive instructional approach, employing the "I Do, We Do, You Do" model across whole group, small group, and individualized settings.

To foster a safe and inclusive environment, the faculty takes proactive measures to instill positive character traits and combat bullying. Reuben Elementary hosts events like Family Literacy Night and Family Math and Science Night, which focus on fostering collaboration between school and families.

Complementing the dedicated teaching staff are various specialists and support personnel. This team includes reading and math interventionists, a Multi-Tiered System of Supports (MTSS) team, technology leaders, guidance counselors, a reading coach, a nurse, a speech clinician, a Multi-Language Learner (MLL) teacher, paraprofessionals, and a Reading Recovery teacher. Together, they contribute significantly to the school's success.

The school administration celebrates achievements by highlighting successes at various levels—school, teacher, and student. Awards such as Teacher and Support Staff of the Month and Year, academic achievement, perfect attendance, and student improvement are recognized annually. Additionally, the school implements numerous programs aimed at promoting health and well-being, fostering school spirit, encouraging reading, and promoting environmental awareness, such as the Healthy Generation School Grant, School Spirit Activities, Reading Initiatives, Healthy Heart Challenge, and the School Gardening Project initiative.
