Projection Thoughts

- There is more than \$1.4 million of expenses thru ESSER the BOE will need to consider the depth of the cuts to pre-ESSER spending levels.
- Operations & Maintenance (without any of the construction projects) runs approximately \$1 million in the red every year.
- These are just projections based on flat % increases there is much work to do before the district gets to 2028.
- i.e. consider this the "worst case scenario"
- To be continued on December 12th...

Next Steps

- Levy notification published in the Southtown
- Board of Education Meeting: December 12
 - Public Hearing and adoption of 2022 levy
 - Accept 2022 PTRG with 2 years of abatements
 - Abate Revenue Recapture
