We have a 7-period day. Five periods are required courses (English, Science, Geography, Math, and PE/Health). 9th graders may choose the following combination options to fill the remaining two periods. Some classes may not have room for all students who want to enroll in them so make sure that you INDICATE A 1ST AND 2ND ALTERNATE class in case you cannot get into the class for which you have selected. 24 credits are required to graduate high school. Please make your selection carefully.

If you are planning to take PSEO classes in grades 11-12, a reminder that the Tech/FACS credit can only be taken at the high school and should be completed in 9th or 10th grade.
