

USD 405 Non-academic Tests, Surveys, and Questionnaires

2023-24

Kansas Communities That Care (KCTC)

USD 405 – Lyons administers the Kansas Communities that Care survey to 6th, 8th, 10th, and 12th graders with parent and student consent. The survey is anonymous and voluntary. The survey measures risk factors and protective factors in our schools and community by totals only. The results are used by school counselors, administrators, the school board, and community organizations to detect trends so that interventions and resources can be allocated to address areas of concern.

The students in USD 405 are **not** surveyed in the modules pertaining to gender identity or sexual orientation.

SAEBRS

The SAEBRS (Social, Academic, and Emotional Behavior Risk Screener) is a brief, norm-referenced tool for screening all students to identify those who are at risk for social-emotional behavior (SEB) problems. SAEBRS is one of the only SEB universal screening tools built to assess both the absence of problem behaviors and symptomatology (e.g., internalizing and externalizing behaviors) and the presence of well-being and competencies (e.g., social-emotional skills).

mySAEBRS

SAEBRS has a student-rater companion assessment, [mySAEBRS](#), which allows students in grades 2-12 to self-assess their social, academic, and emotional behavior. FastBridge recommends using both raters together to gain a more complete picture of a students social-emotional functioning and wellbeing.
