

Dear Parent or Guardian,

August 28, 2023

Sedgwick County Communities That Care is offering an afterschool program at the new Julesburg School beginning this fall. This will transition to the Community Center when the space is ready. We encourage your student to participate as we have a wide variety of crafts, games, and afterschool help with homework. This will be student led, with adult supervision. The idea is to ensure a safe place for students to go afterschool while providing structured outcomes. If you'd like your student to participate, please indicate the days below. The program will start immediately afterschool and students must be picked up no later than 5:15 pm. The program will run on Monday, Tuesday and Thursdays based on the school calendar.
