

STEMtoSpace

Connect with U.S. Space Force military branch from Kirtland AFB and learn about their path to a STEM career in the U.S. Space Force as a civilian or military personnel.

STEMtoSPACE is a program designed to facilitate engagement with school classrooms led by our military and civilian Guardians for the month of December. The goal is to raise awareness and highlight the importance of Science, Technology, Engineering and Mathematics as well as our service's contributions to national security and daily life.

When: December 15, 2023 (Friday)

What/Where:

- **9:30 – 10:30 AM Belen High School Auditorium (assembly)**
Discussion topics could include mission of Space Force, role of STEM in Space Force, education and training needed for careers in the Space Force, experiences in Space Force, upcoming paid summer internships/fellowships and STEM camps around New Mexico
- **Room 211 (for STEM activity) 11:00 AM – 12:30 PM**
Students will be making a satellite with solar panels

Who: All students in grades 9-12 can participate (must sign-up)

Students will sign-up with their science teacher for the assembly and/or STEM activity. If you don't have a science class, you may see any science teacher to sign-up to attend.
