

SCHEDULING AND ROUTING

The Transportation Director shall have the responsibility of scheduling bus routes in such a fashion that riding time and duplication of services shall be minimal. Drivers are required to follow the route and schedule as established and to be at each stop at the appointed time as nearly as can be safely accomplished.

Pupils living not more than two miles distance from the nearest bus stop may not be required by law to be provided transportation. The Board may permit the transportation of students nearer to school than the prescribed limits under the following conditions:

- 1) They live along a regularly established bus route.
- 2) The bus is not loaded to capacity when it reaches the students.
- 3) Those living the farthest distance will be given preference.
- 4) Students who must walk along extremely hazardous roads may be transported regardless of the distance from home to school.

It may not always be possible to transport all students living over two miles from the closest bus stop. The Board may, in such cases, make payment to the parents in lieu of transportation in an amount set by the Board.
