PARK COUNTY SCHOOL DISTRICT #6 BOARD OF EDUCATION POLICY

CODE: JFAB

ADMISSION OF NON-RESIDENT STUDENTS

A non-resident student is any student not residing within the District boundaries. The Board has the sole discretion to admit or deny any non-resident student for any reason. The District may deny admission to any student who has been suspended or expelled from another school district, whether located in or outside the State, for the duration of the suspension or expulsion regardless of whether or not the student establishes residency within this District.

A non-resident student seeking admission must complete and submit application JFAB-E to the Superintendent's office for consideration by district administration. The admission of any student shall be for a period of one (1) school year and the non-resident student shall reapply for admission annually. The application should be submitted prior to the start of the school year.

The District shall not provide transportation for non-resident students outside the boundaries of the District. Exceptions to this policy may be made only with the express consent of the Board and any adjacent school district affected.

Every non-resident student attending school in the District shall be required to have an emergency contact who resides within the District boundaries.

The District shall not charge tuition to the school district wherein the student resides so long as the student resides within the State of Wyoming. However, if the student requesting admission is a high school student from another Wyoming district that does not maintain a high school, the District shall charge the residential district tuition in an amount established pursuant to Wyoming Statute. Admission of an out-of-state student shall require, as a condition for admission, the payment of established tuition. Upon admission, the student shall be included in the average daily membership (ADM) of the school in which they are enrolled.
