2024

BUENA VISTA MIDDLE SCHOOL

BUENA VISTA DEMONS

Greetings BVMS Families!

It's March and Spring is in the air! HS baseball practiced started this week, and I for one feel very grateful that it did...as we can always use the moisture. It won't be long before the green grass will return, and with it, the promise of warmer days. We have a week to go in the quarter (March 8th) before the home stretch (4th quarter) starts. I hope all of the kids can stay focused on their school work and can stay positive—especially our 8th graders—who can often be affected by “eight grade-itus”, a debilitating condition that can cause apathy for the middle school and a longing for the adventures that await them in high school. Ninth grade will come soon enough kids, enjoy the last few months of middle school!

The big event at the middle school this month (besides SPRING BREAK!!!) is our Spring Student Led Presentations. As you remember, the majority of you conferenced with your student last Fall. You helped your student make academic and social goals for the school year. We meet again this Spring to see how the student did towards meeting those goals—among other things. Having students take ownership of their learning has a big affect on student success. We understand that many parents would like to talk directly to their student's teachers, so teachers will have sign up sheets on their doors if you would like to have them contact you to set something up. Next fall, we are planning to schedule some time exclusively for parent-teacher conferences. Please be on the look out for a communication from your student's advisory teacher for a time to come in and hear your student's presentation. These presentations help our kids practice for the portfolios that they will be required to complete in HS. It's a great opportunity to see what your student has been doing (or maybe not doing) this school year. We look forward to seeing you all soon.

As we head towards the end of the school year, we always like to remind students about maintaining a high level of self-regulation, effort and determination in finishing the year. Spring Fever can be a very real phenomenon for a number of our students, so it is a good time of the year to remind our students of our RISE behavior expectations. Now is not the time to lose one's common sense when it comes to treating others with respect, acting with integrity, making good choices, and trying your hardest. We have a lot fun activities planned for the end of the year, and we need to make sure that we can trust our students to make the good choices in order for us to feel comfortable enough to include them in the activities.

Thank you for your support. Have a great month everyone!

John Emilsson
Principal BVMS
