REPORT CARDS/PROGRESS REPORTS

The Lake Forest Board of Education believes it is essential for parents/guardians to be regularly and fully informed of their student's progress in school. To achieve this, the Board directs the Administration of each school to provide access to report cards and interim progress reports to each student's parent/guardian digitally or in paper form. The reports will provide an assessment of the student's academic progress.

Report cards and interim progress reports will be generated at least four times each year as noted on the school calendar.
