## **RESPECT FOR DIVERSITY**

The Lake Forest School District serves students and families from diverse backgrounds and experiences. The District will foster an environment where students are safe in their beliefs and comfortable seeking rigorous learning opportunities which prepare them for college and career.

Educational offerings in the District will be structured so as to provide a setting through which students will be encouraged to:

- Interact with peers, teachers, administrators, and others to develop good working relationships.
- Acquire an understanding of persons belonging to social, cultural, religious and ethnic groups different from their own.
- Acquire skills necessary to be a productive member of any group project or activity.
