

HERKIMER BOCES HONOR PROGRAMS 2023-2024

The Honors Program is designed to support the potential of students in grades 3-12 who have above average interests and abilities in a particular area . Programs allow for interaction with like-minded peers. Students learn by engaging in educational activities with presenters who are noted in their field. Exploration and programs provide for different learning styles and include topics in the arts and sciences as well as literature and history. Ongoing evaluation of all programs by teachers and students assures their relevance and quality.
