03.20.2024

Dear Parents and Caretakers,

The 23g Kids Back On Track grant was applied for and received by the North Adams-Jerome Public School district. Understanding the need for additional instruction in the areas of Math and ELA, North Adams-Jerome Public Schools has applied for this grant to supplement classroom instruction. This additional instruction is for students in grades 3-12 who need additional academic support during the school day and after.

### **GVSU Partnership**

We are currently finishing up contracts with Grand Valley State University's K-12 Connect Program which will provide our students with after school tutoring in a 1:1 or 1:3 format. Secondary students physically attending or virtually attending the after-school academic support tutoring will receive approximately an hour of core content support.

### **Summer School - Credit Recovery**

We are in the process of planning summer school as a credit recovery opportunity for students in grades 9-12 seeking to gain credits they previously were not able to capture. Courses offered are virtual, however all students must be present in the building to take advantage of the teacher support offered.

### **IXL Personalized Learning**

Beginning in the 24-25 School Year, IXL will be available for all K-12 students in the area of Math and ELA daily. Contact your child's teacher in August 2024 for more information.

**If you would like more information about any of the above initiatives, please get in touch with the K-12 Principal:**
