Noble Public Schools were notified late this morning by a student of a potential threat regarding Curtis Inge Middle School. Our school resource officers, Officer Austin & Officer Standridge, as well as Central Office and CIMS Administration, were notified to assess and advise us of the situation. The student responsible was identified and detained. The threat is like many of those received in the past, which we always take seriously. We are extremely fortunate that our students and parents watch out for each other and notify us when any type of threats or potential threats are made.

Charges will be filed with law enforcement as warranted. Noble Public Schools will always be proactive in the protection of our students and staff. Thank you to all members of our school community for being a vital part of the protection of Noble Public Schools. Please continue to monitor your children and emphasize the magnitude of any comments that are made. We appreciate your support. Thank you.
