

Google Chrome - How to update to the newest version

If Google Chrome is slow and/or not functioning correctly please try to force an update!

After following the steps below, if there is an update, it will do it automatically. You can leave the updating tab open and still use other tabs.

When finished, it will prompt you on that updating tab to reload.

Click the three dots on the top right of chrome -->Help --> About Google Chrome
It will automatically try to update if there is one.

Revision #1
