March 18

Classes Resume!

READING / LANGUAGE ARTS:

6.5C – The student can make, correct, or confirm predictions using text features, characteristics of genre, and structures.

6.5F – The student can make inferences and use evidence to support understanding.

6.6C – The student can use text evidence to support an appropriate response.

6.6D – The student can paraphrase and summarize texts in ways that maintain meaning and logical order.

6.10B – The student can develop drafts into a focused, structured, and coherent piece of writing.

6.10C – The student can revise drafts for clarity, development, organization, style, word choice, and sentence variety.

6.10D – The student can edit drafts using standard English conventions.

SCIENCE: THE SOLAR SYSTEM – Vocabulary Test – March 7

- 6.2 – The student can collect and record data using the International System of Units (SI) and qualitative means such as labeled drawings, writing and graphic organizers.
- 6.3 – The student can use critical thinking scientific reasoning, and problem solving to make informed decisions and knows the contributions of relevant scientists.
- 6.4 – The student knows how to use a variety of tools and safety equipment to conduct science inquiry.

SOCIAL STUDIES: Vocabulary Test – March 6 – Projects due March 8!

- 6.1 – The student can understand that historical events influence contemporary events.
- 6.3 – The student can understand the factors that influence the locations and characteristics of various contemporary societies on maps and globes.
- 6.15 – The student can understand relationships that exist among world cultures.

MATH: Unit 9 Test - Thursday, March 7!

- 6.8A** - The student can extend previous knowledge of triangles and their properties to include the sum of angles of a triangle, the relationship between the lengths of sides and measures of angles in a triangle, and determining when three lengths form a triangle.
- 6.8B** - The student can model area formulas for parallelograms, trapezoids, and triangles by decomposing and rearranging parts of these shapes.
- 6.8C/D** - The student can represent and solve problems about the area of rectangles, parallelograms, trapezoids, and triangles; and represent and solve problems about the volume of a rectangular prism.

Taking GT
Nominations
through the month
of March!
