The rise in the use of vaping devices and other substances among youth is a growing concern. Are you familiar with carts? Dabs? Box mods? If you have young people in your life, you should be.

The Wake-Up Call presentation, a program of Your Choice, provides practical information on current drug trends, a walk-through of a teens' backpack with more than 20 red flags that could indicate substance abuse as well as proactive parenting strategies to keep your child substance free.

This presentation is a MUST SEE for parents, grandparents, teachers, community members and other adults who are influential in the lives of youth.
