Shawnee Local Schools Parents/Guardians:

Many local school districts in our area and around the state received an email from someone claiming to be a Russian terrorist. This email containing threats to many schools in Ohio and around the country has ***not*** been received by Shawnee Schools. The FBI is investigating and has notified schools that this is a non-credible threat and they believe it to be a hoax.

Safety is our number one priority. Our School Resource Officer is monitoring the situation closely. We will continue to work proactively with local law enforcement to monitor the situation and make adjustments as needed based on information we receive.

We take 100% of the threats we receive seriously. As always, if you see or hear something, say something. Remain vigilant and report any suspicious activity or people to law enforcement immediately. The Safer Schools Ohio Tip Line is also available 24/7. Visit ohioschoolsafetycenter.ohio.gov for additional information.

Sincerely,

Jude Meyers
