

The Gloversville Enlarged School District qualified for the program offering free breakfast and lunch for the 2023-24 school year because of the socio-economic diversity of our community. In order to keep track of the District's eligibility for such programs, it is important that every household fill out a Household Income Eligibility form.

You can access a digital version of the Household Income Eligibility.

**[Click here to view the online form](#)**

This form provides valuable data to the District, as well as state and federal agencies, and provides a framework for the District to qualify and take advantage of different programs, based on the true demographics of GESD's scholar's population. The District will use information on this form to see what other benefits your family might be eligible for, including reduced fees for SATs, reduced monthly costs for internet access from Spectrum, and much more!
