RE: Change to your student's schedule

Good afternoon,

Due to a recent resignation of a math teacher, your student's schedule has changed effective this Monday, February 12th, 2024. The reason for the schedule change was to be sure that your student is placed with a consistent math teacher daily, rather than having various outside substitutes while we are waiting for applicants for the open position. For the majority of students, the change was only swapping two classes. We have preserved all students' grades on paper to be sure that nothing was lost in the change.

I have been in classrooms to talk personally to all students affected over the last week to explain the changes and allow students to ask questions. I met with this class in particular on Friday to let them know the change would be effective Monday. The new schedules are available for viewing in Skyward and we will be working this week toward transferring the current grades to the new class hours.

Should you have any questions, please feel free to contact me at the high school via email or phone.

Thank you and Go Pioneers!
