

A Brief History Of Our School

The Options in Education program at Lamar Academy in McAllen ISD was established as an alternative education program designed to support students needing a non-traditional pathway to earn their high school diploma. It has historically served students who may struggle in a traditional high school setting due to personal, academic, or external challenges, offering a flexible curriculum and individualized support to help them succeed.

For many years, the Options program has played a crucial role in helping students overcome obstacles such as credit deficiencies, life circumstances, or work obligations, allowing them to earn a McAllen ISD diploma rather than a GED. It has emphasized small class sizes, personalized instruction, and flexible scheduling to meet students' needs.
