

Monroe - Message From the Principal

March 25, 2024

Notes from the Principal, Ms. Dupuy ...

What a crazy week it was! From sunshine to snow and everything in between. Unfortunately due to the weather we were unable to boil our sap on Thursday. But good news, we will try again this week! We have kept our sap frozen and are ready to give it another go!

As we continue through the month of March, we also wanted to remind students about the exciting "Bikes for Books" program sponsored by our local Masons. Remember, students can earn slips by reading, and these slips could lead to winning some fantastic prizes like a new bike, helmet and snazzy t-shirt. As a bonus we are also giving the class who has the most slips per pupil a pizza party!

Wishing you all a wonderful week ahead filled with warmth and cheer!

Reminders this week include:

- With this Spring weather comes mud! Sometimes our students' get a little wet. You may
 want to consider sending a dry set of clothes for students to keep at school or in their
 backpacks so they can change into something dry.
- Daily dismissal time will begin with parent pick ups at 3:00, followed by bus dismissals.
 Parents are asked to pull up to the entrance and your child will be brought out to meet your car.

Please do not hesitate to reach out to me if you have questions, concerns, or need support for your child or your family. Have a great week!

(email: jdupuy@rsu3.org school phone: 525-3504 cell: 249-1061)

Important Upcoming Dates.....

3/28 - Sap Boil

4/8 - School Board Meeting at MVHS 6:30

4/10 - Academic Fair

4/12 - Early Release for Students

4/15 - 4/19 April Break

Monroe Elementary School's Academic Fair - Science & Math Night Wednesday, April 10th from 5:30 - 6:15

Each student will have a project and display to share. Look for more information from classroom teachers about the projects. Ms. Toothaker will also have math games for families to pick up for free!

K	This has been an exciting week. We got to learn about Owls with Chewonki. We even got to see real Owls! Thank you to the PTO for providing this amazing experience to our school. We have been collecting sap from a few maple trees that Kindergarten got to tap. We will see the boiling process and get to taste some on the 28th! We have been learning new terms in math for our new unit (subtraction). We are learning terms like: take away, minus, break apart and How many are left?
	on the 28th! We have been learning new terms in math for our new unit

First and second graders had a fantastic time learning about owls from Chewonki! We learned so many interesting facts about how owls see, hear, and hunt. The most exciting part was meeting a Saw-Whet owl named Haven and a Barred owl named Luna. Thank you to our PTO for providing this amazing opportunity for us!

Our class also loved the Chewonki presentation. Learning about the owls' adaptations was great timing, as students are beginning to research the physical and behavioral adaptations of the Maine mammal they selected for the Academic Fair research project. There will be opportunities for students to enhance their projects by working on parts at home, stay tuned for more information about that.

I am so proud of % for doing such a great job during the Chewonki biome presentation. Hopefully, everyone came home excited about seeing a Madagascar cockroach, a Blue Tongue Skink, and an Owl! We ran a little over on time because of all the great questions and sharing of knowledge we learned during our biome unit. In Math, we finished up our multiplication review and 4th grade will be moving on to division! 5th grade just completed the mid chapter checkpoint on multiplying decimals. In social studies we are diving deep into the colonization of America and will use what we are learning for the upcoming Academic Fair. We have a very busy week for the end of March!

As always students continued working on reading notation, ear training, and rep for the spring concert. K-2 practiced rhythms with bucket drumming and took a look at the inside of an organ. 3-5 worked on interpretation through their aesthetic

boards.

□ Pipe Organ (An instrument the size of a building)

Agriculture

Did you know that Maine is the #1 grower and harvester of seaweed in the entire United States?! Seaweed can be eaten in salads, soups, and sushi, but is also an ingredient in many other products, like toothpastes, cosmetics, ice cream, and candy. Thanks to Maine Agriculture in the Classroom, classrooms received a new book, <u>The Wakame Gatherers</u>, about growing and harvesting seaweed. We also harvested the Lion's Mane mushrooms donated by Johnny's Selected Seeds in a few classrooms!

SEL

This week was review Kahoot week! We tested our knowledge about what we have learned about compassion!

RAISING FUNDS FOR A BRIGHTER FUTURE.

Look for the shelf tag on more than 1,500 participating products that will help earn money for your school.

CHECK OUT

Get 3 School Dollars for every 4 participating products you purchase.

DONATE TO YOUR SCHOOL

Deposit your School Dollars in the collection tower to donate to all participating schools, or scan the QR code below to donate directly to any participating school of your choice.

hannafordhelpsschools.com

The top 200 schools that earn the most will receive a \$1,000 BONUS!

Now through June 1, 2024, choose from over 1,500 participating products to join in

RAISING \$1 MILLION

for our local schools.

FREE VETERANS LAW CLASS

"Who doesn't know a veteran" or "THE VA"?
One phrase rings true, the other spurs thoughts of frustration,
bureaucratic double-speak; and confusion.

However, some attorneys, like Mailloux and Marden's Tyler Hadyniak (Mount View Class of 2011), are experts in navigating the VA benefits system and helping veterans get disability benefits for medical conditions they think are related to service.

Tyler's legal career began in veterans law, and he is the only veterans disability law attorney in Waldo and Knox Counties.

This course will be a basic, introductory guide to veterans benefits law.

There is no charge to attend but registration is required. Please contact RSU#3 Adult Ed at 568-3426.

Tyler will walk participants through the VA benefits process, and explain what an applicant needs to prove and how to do it. By the end of the class, participants will be able to explain to veterans, their friends, and family, what is required to get compensation through the VA.

It's Not If You Need An Estate Plan, It's When

Instructor: Randolph A. Mailloux, Esq.

This FREE class is a basic overview of estate planning, including discussion of essential documents and strategies. After attending this two night course students will be able to make informed decisions to prepare for the orderly transfer and protection of assets.

Wednesday, April 3rd & 10th 5:30-7:30pm

Register for FREE today!

Cheese, Yogurt, Ice Cream ... OH MY!

5:00-8:00pm

\$55.00

Get ready to sink your teeth in some tasty treats. This is a 3-hour course where we will learn how to make soft cheese, yogurt, and my favorite...ice cream. We will go over the tools and materials needed, ingredients, recipes, and the step-by-step process. Get ready to taste our lovely homemade treats.

March 28

Gourd Bowl with Pine Rim

April 23

5:00-8:00pm

\$55.00

Make a gourd basket. Perfect for a gift or to keep for yourself. Gourds will be pre-cut. Students will need to clean gourds, sand, and drill holes. Then we will sew white pine needles to the rim. We will be able to pick from a number of stains to finish the gourds. Gourds are around 4-5" in diameter. During this class, we will also go over the basics of making pine needle baskets. This is another great class to learn a skill for life.

Dog and Cat First Aid

May 16th

5:00-8:30pm

\$60.00

This training is to teach participants how to be prepared for emergencies that involve a cat or dog. The training will combine videos, lectures, interactive discussion, and hands-on practical's. By the end of training participants will be able to do or understand the following: What goes into a pet first aid kit, What is the normal physical condition, behaviors and habits of your pet, Identify a normal heart rate, breathing rate and temperature, How to safely approach an ill or injured cat or dog, How to capture and restrain a cat and muzzle a dog, Demonstrate how to perform bandaging for soft tissue injuries, Care for fractures including head and neck injuries, Learn how to care for an animal with heat/cold related emergencies, Check for breathing and cardiac emergencies and Understand how to give rescue breathing and perform CPR for a dog or cat. Must be 18.

Birch Bark Basket

June 4th

5:00 pm-8:00

\$50.00

Make your own birch bark basket. Learn how to identify trees, collect the bark from down trees, how to process the bark, and finally how to make a basket. Course fee will cover all material and instruction.

Is my child too sick for school?

Each day many parents are faced with a decision: should they keep their sick children at home or send them to school? Often the way a child looks and acts can make the decision an obvious one. In accordance with Maine Department of Health and Human Services guidelines, a child should not attend school if he/she exhibits one or more of the following symptoms or infections:

Keep your child home if he/she has any of the following symptoms:

- Fever (Greater than 100° F)- the student may return when fever-free for 24 hours WITHOUT the use of fever reducing medication.
- Cough: A child with an uncontrolled cough should stay home until they are coughing with less frequency.
- **Diarrhea/Vomiting**: A child with diarrhea and/or vomiting should stay at home and return to school only after being symptom free for 24 hours.
- Rash- Any new onset of rash if accompanied by fever; may return after rash resolves or diagnosis is made and clearance given
- Skin Lesions (sores) A student should not be at school with any sores with drainage that cannot be contained within a bandage
- Strep Throat/Impetigo and other bacterial infections requiring antibiotics- A student
 with strep throat must remain home until they have been on their antibiotics for a full 24
 hours.
- Colds- A child with thick yellow-greenish mucous accompanied by fever, vomiting, diarrhea. or constant nasal discharge should remain home. Very few younger children can effectively blow their noses and wash their hands afterward. A child with the above symptoms will quickly spread the illness to other children.
- Other- Any symptoms or complaints that prevent the student from active participation in usual school activities

If your student tests positive for COVID-19, they must isolate at home for 5 days. After 5 days they may return with symptom improvement, masking days 6 through 10. More information can be found here: https://www.cdc.gov/coronavirus/2019-ncov/your-health/isolation.

Home is the best place for a child who is ill. Students with these symptoms cannot comfortably participate in school activities and unnecessarily expose others to their illnesses.
