4:30 PM

Agenda

1. Kayla Sherman will discuss her class, "The Homeplace," and classroom topics that have already been presented to our junior high school students. This is a social-emotional learning classroom. She will bring a sample of an activity students have done in class. She will also discuss any needs that she feels our junior high students could benefit from, such as a possible mentorship program, and request any additional future topics we might feel beneficial for her classroom.
