

Below are the results of the calendar change survey that was presented to the district's staff and parents. The majority of both groups wanted to see time added to the school day, so that the missed snow days could be recovered. The largest group in both the staff and parent survey was the groups requesting 30 minutes be added to the day. Last night, February 1st, the school board voted to change our school calendar based on the proposal submitted to them by the district's licensed personnel policy committee reflecting the survey results. The changes made to the calendar incorporated three points:

1. Change calendar from a day-based calendar to an hour-based calendar per state law and ADE regulations.
2. Add 30 minutes to the instructional day, so that 6 days can be recovered; 4 of the days will be used to make up the 4 snow days and 2 will be held in reserve if more days are missed.
3. Any other days missed over the 2 days held in reserve will be added to the end of the school year.

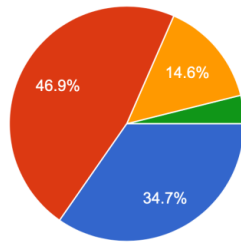

These changes will take affect Monday, February 5th. Your child's school will dismiss 30 minutes later than it has been. This means buses will also be 30 minutes later than they have been.

We appreciate everyone that participated in the survey and helped us make this big decision.

Please choose the makeup day option that you would prefer.

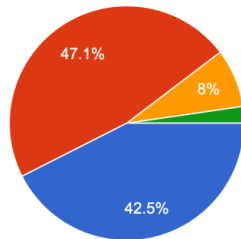

591 responses

- Keep the calendar as is, utilizing the makeup days as scheduled.
- Add 30 minutes to each school day for the rest of the year. (This would makeup the 4 days missed, and "bank" 2 additional days.)
- Add 20 minutes to each school day for the rest of the year. (This would makeup the 4 days missed.)
- Add 10 minutes to each day for the rest of the year. (This would only makeup...)

Por favor, elige la opción de día de recuperación que prefieras.

87 responses

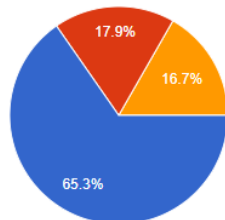

- Mantener el calendario tal como está, utilizando los días de recuperación según lo programado.
- Agregar 30 minutos a cada día escolar durante el resto del año (esto compensaría los 4 días perdidos y "acumular" 2 días adicionales.)
- Agregar 20 minutos a cada día escolar durante el resto del año (esto compensaría los 4 días perdidos.)
- Agregar 10 minutos a cada día durante el resto del año (esto solo compensaría los 4 días perdidos.)

- Yes, change our calendar to a minutes calendar and add 30 minutes to each day for the rest of the school year. (This will make up days we have already missed plus provide 2 additional days...)
- Yes, change our calendar to a minutes calendar and add 20 minutes to each day for the rest of the year. (This will make up the 4 days we have already missed and allow us to have the flex d...)
- No, leave our calendar as it is.
