Comprehensive Needs Assessment SY2022-2023

Introduction: Based on ARM 10.55.601(2), the Office of Public Instruction (OPI) has aligned the accreditation process to include a Comprehensive Needs Assessment (CNA) and gap analysis for all schools before creating an Integrated Strategic Action Plan (ISAP).

Purpose: Conducting a CNA helps a district identify, understand, and better address educational challenges. It is a systemic examination of the gap that exists between the current state and the desired state of the district. The CNA is the first step in planning and improving the effectiveness of education investments that lead to better outcomes for students.
