February 2024

Message From Mrs. McCreary

January has gone quickly and I hope your start to the new year has been a good one. Our students have revisited school routines and procedures. They are working on third nine weeks standards. It's essential to ensure that we maintain effective communication between home and school. Your partnership and support greatly contribute to our students' success, and your involvement is highly valued.

I want to extend a warm welcome to any new families who have recently joined our school community. We are happy to have you with us and hope your time here will be filled with learning, connection, and growth opportunities. Please know that our doors are always open, and we are here to support you in every possible way as you become a part of our school family.

I would like to remind everyone of the importance of keeping us informed about any updates or changes that may affect your child's school day. This includes but not limited to:

Medication Changes: If there have been any changes in your child's medication, dosage, or administration times, please notify the school nurse. Your prompt communication helps us ensure your child's well-being and safety while they are in our care.

Dismissal/Pickup: Any modifications to your child's regular dismissal routine, such as a change in the person responsible for pickup or a different after-school arrangement, should be communicated to the school office in advance. This ensures a smooth and secure transition for your child at the end of the day.

Pertinent Information: If there are any other updates or pertinent information that you believe would be important for us to know, such as changes in contact details, address, phone numbers, family circumstances, or health concerns, please do not hesitate to share that information with us.

Attendance and Being on Time: It is important that students attend school everyday. If your child is complaining of not "feeling well" and has no fever, send them to school. We will always send sick children home if they have a fever or vomiting. Also, we have around 25 students arrive to school late. If you want your child to eat breakfast they need to arrive at 7:35. They must be in their seats (not walking in the front door) no later than 7:55. Please help with this. We want our students to learn that you've got to show up and be on time when you have a job. At this time of their life school is their job. We want them to be successful in every way!

Your proactive communication allows us to provide the best possible support and care for your child during their time at school. We are committed to creating a safe, nurturing, and conducive learning environment for all our students.

Should you have any questions, concerns, or need further assistance, please feel free to reach out to our staff. We are here to listen, collaborate, and ensure a positive educational experience for your child.

Thank you for your cooperation and continued support. Together we can make the rest of the school year a successful and enriching one for our students.

Sincerely,

CogAT Testing

CogAT Testing for grades K, 2, 4 and 6 will be February 5 through February 23. The Cognitive Abilities Test (CogAT) is a multiple-choice K-12 assessment that measures reasoning skills. The CogAT Test measures the level and pattern of cognitive development of a student compared to students at their age and grade. These general reasoning abilities, which start developing at birth and continue through early adulthood, are influenced by experiences gained both in and out of school. It is used by teachers to identify a student's strengths and weaknesses and help guide educational placement decisions.

The screenshot displays the TestingMom.com interface for the CogAT Test Overview. The page is titled "What is on the Test? NonVerbal Battery" and is divided into two main sections: "Picture Format - Levels 5/6 - II - K - 2nd Grade" and "Standard Format - Levels 9 - 17/18 - 3rd - 11th Grade".

Picture Format - Levels 5/6 - II - K - 2nd Grade:

- Figure Matrices:** Shows a 2x2 grid of shapes. The first row contains a circle with a black sector and a square with a black corner. The second row contains a square with a black corner and a square with a black corner. Below the grid are four options labeled 1, 2, 3, and 4.
- Paper Folding:** Shows a square with a diagonal line and a small square in the top-right corner. Below it are four options labeled 1, 2, 3, and 4.
- Figure Classification:** Shows a 2x2 grid of shapes. The first row contains a circle with a black sector and a square with a black corner. The second row contains a square with a black corner and a square with a black corner. Below the grid are four options labeled A, B, C, and D.

Standard Format - Levels 9 - 17/18 - 3rd - 11th Grade:

- Figure Matrices:** Shows a 2x2 grid of shapes. The first row contains a circle with a black sector and a square with a black corner. The second row contains a triangle with a black corner and a triangle with a black corner. Below the grid are four options labeled 1, 2, 3, and 4.
- Paper Folding:** Shows a square with a diagonal line and a small square in the top-right corner. Below it are four options labeled 1, 2, 3, and 4.
- Figure Classification:** Shows a 2x2 grid of shapes. The first row contains a circle with a black sector and a square with a black corner. The second row contains a square with a black corner and a square with a black corner. Below the grid are four options labeled A, B, C, and D.
