

Tanner Brand Memorial Scholarship

Tanner Brand at 24 was full of life and brought joy and smiles to many people. Work ethic was very important to Tanner and he was always interested in learning new skills and trades. Although Tanner was not college educated he took advantage of the career tech system that later led him to getting his CDL, which helped him with his dream of having a trucking business.

Tanner was the husband of Whitney Brand and an amazing daddy to Blazen. He was a great provider, team roper, fun having young man. He would love nothing more than to bless a young person with a scholarship to move forward with their own dreams.

As his family we want to carry on Tanner's legacy and dream. He never met a stranger. He left everyone with a laugh or a smile and it is our goal for you to carry on this legacy if granted this scholarship.
