Shortly after school began this morning, school staff were alerted by the district software system that a student had used suspicious or threatening language in a school document. School administration, along with the school resource officer quickly investigated the incident. At no time during the scope of the investigation were any students or staff unsafe. The district is following all student disciplinary procedures for the student involved. We continue to be alert to any issue that may affect student and staff safety and remind everyone that if you see or hear something to say something and report it. Our overall goal is school safety and the protection of all students.
