Rams Family,

It is with a heavy heart that I share news about SHS senior student, Corey Gordon. Last night, Corey passed away due to injuries sustained in a car accident. Our thoughts and prayers are extended to Corey's family, and to the other individuals involved in the wreck.

Next week, Shelbyville High School will have an increased number of guidance and grief counselors available to students and staff. More information related to supportive services will be communicated at school on Monday, November 20, 2023.

If you believe that your child would benefit from counseling or if they are in need of supportive services, please contact the high school office at 217-774-3926. We are here to help, now and always.
