School Safety Updates

Last school year, Critical Incident Management conducted a School Safety Assessment. Information from that assessment was used to update the MCS Strategic Plan. We are now implementing the strategic plan and will be updating the PA System at Meachum Elementary School in November. We have also been in touch with an architect to start the process of building a front entrance at Millington Jr/Sr High School. Please do your part on a daily basis to ensure the safety of our students by keeping the exterior doors of our buildings secure at all times. Please do not prop the doors of the school buildings open at any time. If you notice that a door has been propped open, please close it.
