(Regulation 2921)

Activities and Athletics

Participation by Non-Traditional Students

Should the District elect to permit non-traditional students to participate in interscholastic activities, such students must qualify as bonafide students under MSHSAA regulations in order to participate in such activities.

Non-Traditional students may be considered bonafide under MSHSAA regulations under any of the following options:

Option 1 – Transcribed Credits

1. The student must be enrolled in a District high school although some courses/credits are taken off-campus, i.e. virtual, post-secondary, work study, etc; and
2. All credits attempted must appear on the student's high school transcript; and
3. All classes must be completed by the high school's close of semester in order to be considered counted toward activity eligibility.

Option 2 – Seat Time plus Non-Transcribed Credits

1. The student must be enrolled in a District High School or Middle School and take a minimum of two (2) credit bearing seat time classes for a minimum of 1.0 units of credit at the high school or middle school; and
2. High School or Middle School Administration must confirm after a full academic review that the student is further enrolled in courses outside of the high school or middle school, which bring the student up to full MSHSAA mandated credit requirements of 80%. The High School or Middle School Administration will develop and submit to the Superintendent a written procedure to determine approval of outside courses/credits; as well as the procedures to determine success/credit confirmation for academic eligibility for the current and following semester. It is not necessary that such confirmed credits be placed on the student's transcript.
3. All classes must be completed by the high school or middle school's end of semester in order to be considered toward activity eligibility.

Change of Enrollment Status

Any student whose enrollment status changes from being a non-bonafide activity eligible student to a bonafide activity eligible student will be considered a transfer student. As a transfer student, the student would be activity ineligible until a transfer of eligibility form is filed and an eligibility ruling rendered.
