

BALD EAGLE AREA SCHOOL DISTRICT COMPUTER ACCOUNT REQUEST FORM

COMPTUER AND NETWORK USUAGE

Bald Eagle Area School District – (BEASD) expects its students, faculty, and staff to use computers in an ethical and legal way. Unauthorized inspections, obstruction, or interference with the work of others is a serious offence and may violate state and federal laws. Pennsylvania specifically prohibits the intentional and unauthorized access, alteration, damage or destruction of any computer system, network, software or database, or any part thereof (18a C.S.A. 532933)

COMMERICAL USE

The technological resources of **BEASD** are available for the authorized use of students, faculty, and staff in the pursuit of their academic and administrative endeavors. The extension of services to others is forbidden without prior written approval. The use of these resources, computers and networks for commercial purposes, enterprise, profit, or resale is expressly prohibited.

COPYRIGHTS

BEASD expects its guests, students, faculty, and staff to obey Federal Copyright laws. The laws prohibit copying without permission of a copyrighted work. The tangible form of an original expression may take many forms including computer program files. Even if not copyrighted the unauthorized use of computer materials is usually wrong. If the material is sold commercially copying may violate Federal or Pennsylvania laws prohibiting the theft of trade secrets or the seller's registration or licensing agreements. Even if the material is not copyrighted or sold commercially as in the case of another person's work, unauthorized copying certainly violates reasonable standards or ethical conduct and/or the school district's academic honesty policies.
