TRY BREAKFAST@SCHOOL!

If you're like a lot of teens, eating a healthy breakfast while you're rushing to get out the door in the morning can be a real hassle. This month, we're celebrating National School Breakfast Week, March 3-7 -- which makes this a great time to give hassle-free Breakfast@School a try!

EAT BETTER. PLAY HARDER. LIVE HEALTHIER. LEARN EASIER.
WELLNESS IS A WAY OF LIFE!

The Honey Badger of Africa
and Asia is really closer to a
weasel than a true badger, but

one thing about its name is definitely true: the honey badger loves honey and will avidly seek out beehives to get at it. Of course, the honey badger will also eat pretty much anything it finds -- rodents, frogs, snakes, insects, turtles, birds, lizards, eggs, vegetables, and whatever else it comes across. They've even been known to chase away young lions and steal their kills. Guess the honey badger really doesn't care!

item: Baked Potato
verdict: Crown with care!

tip: The simple baked spud is a veritable king of healthy eating . . . **UNLESS** you're one of those people who consider a baked potato to be nature's perfect excuse to melt and consume gobs of butter, cheese, and sour cream. Remember: potato, no fat -- sour cream and cheese, lots of fat -- butter, all fat! Try just a little butter or a small dollop of sour cream with fresh green onions and steamed broccoli instead to keep this versatile veggie delicious and healthy!
