School Board Member Ethics

BH

As a member of my local board, I will strive to improve public education, and to that end I will:

Attend all regularly scheduled board meetings insofar as possible and become informed concerning the issues to be considered at those meetings;

Recognize that I should endeavor to make policy decisions only after full discussion at publicly held board meetings;

It may not be reproduced, either in whole or in part, in any form whatsoever, to be given, sold or transmitted to any person or entity including but not limited to another school district, organization, company or corporation without written permission from KASB.

Render all decisions based on the available facts and my independent judgment, and refuse to surrender that judgment to individuals or special interest groups;

Encourage the free expression of opinion by all board members, and seek systematic communications between the board and students, district staff, and all elements of the community;

Work with other board members to establish effective board policies and to delegate authority for the administration of the schools to the superintendent;

Communicate to other board members and the superintendent expressions of public reaction to board policies and school programs;

Inform myself about current educational issues by individual study and through participation in programs providing needed information, such as those sponsored by my state and national school boards associations;

Support the employment of those persons best qualified to serve as district staff and insist on a regular impartial evaluation of all staff;

Avoid being placed in a position of conflict of interest and refrain from using my board position for personal or partisan gain;

Take no private action that will compromise the board or the administration and respect the confidentiality of information that is privileged under applicable law; and

Remember always that the first and greatest concern must be the educational welfare of the students attending the public schools.

Any monies not immediately required for the purposes for which the monies were collected or received may be invested as provided by current statute.

Posting Securities

All investments of district monies shall be secured to 100% of the amount of district monies by F.D.I.C. coverage, a pledge of direct federal obligations, or direct guaranteed federal agency deposits in accordance with requirements of state law. Exceptions to the required posting of securities shall be only as provided by law and with approval of the board.

The treasurer or other person designated by the board shall inform each eligible financial institution of the total amount of money to be invested on a specified date and the maturity date of the investment. Each financial institution responding shall submit a single proposal of the rate of interest it would pay on all or part of the funds to be invested.

funds, shall be invested in secured deposits in financial institutions which have offices located in counties in which a part of the school district is located.

Any monies not invested in financial institutions in the district or located in counties in which a part of the school district is located may be invested as authorized by Kansas law.

Monies available for reinvestment as a result of maturities may be reinvested with the financial institution holding such monies provided the financial institution agrees to pay the same or higher rate as that offered by the highest proposal at the time the requests for proposals were accepted.

In the event of identical high proposals, the allocation of monies to be invested between the financial institutions offering the high proposals shall be at the discretion of the superintendent. The treasurer shall record the following information: the date of each request for proposal; the name of each financial institution notified; the name of the officer notified; the proposal; the amount of monies the financial institution is willing to accept at the rate proposed.

Collection Procedures (See EE and JS)

DP

Unpaid Fees and Negative Account Balances

Unpaid or overdue accounts disrupt accounting practices within the district. All persons who owe overdue fees or have negative account balances with the district shall be notified of the delinquency up to three times in not less than ten day increments by the superintendent or superintendent's designee via letter sent by U.S. First Class Mail providing that the individual owes the district fees or that a specified account has insufficient funds or a negative balance and the reason for the fees or account withdrawals.

If, within ten days after the second notice was mailed, the debt is not paid in full or arrangements have not been made with the superintendent or superintendent's designee to pay it, a third and final notice shall be sent to the debtor by mail. Postage and stationery costs may be added to the original bill.

If full payment is not received by the clerk within ten days after mailing of the final notice, authorization for the enforcement of collection may be obtained through the local small claims court in compliance with Kansas statutes or the superintendent or superintendent's designee may turn the matter over to legal counsel to commence debt collection proceedings on behalf of the district, or the matter may be handled through the Kansas SetOff Program.

Insufficient Funds Checks

Option 1:

The superintendent or the superintendent's designee is authorized to request charges to be filed against a person or persons giving worthless or insufficient fund checks to the school district. In addition, the board adopts the following procedures for dealing with returned checks in the school setting.

Once the person is notified of the first returned check via U.S. First Class Mail, if restitution is made within five working days from the notification being mailed, there will be no charge for a returned check. If after a second notification is sent, restitution is not made within an additional five working days, a fee of \$10.00 will be charged.

- If a person has a second returned check, he/she will be notified and assessed a \$15.00 fee, providing restitution is made within five working days. After the second notification is mailed concerning the second returned check, a fee of \$20.00 will be assessed.
- For a third returned check, the person will be notified, assessed a \$30.00 fee, and informed that the district and its schools will not accept any future checks for such person. All future payments to the district or individual schools would then need to be in the form of cash, cashier's check, or credit/debit card payment.
- If restitution of the third check is not made within five working days from mailing the final notification, the superintendent or superintendent's designee will be notified, and the superintendent or superintendent's designee may turn the matter over to the county attorney for legal action.

Option 2:

The superintendent or the superintendent's designee is authorized to retain the services of a bad check collection agency to collect funds due to the district upon receipt of insufficient funds checks.

Unpaid Meal Charges

The district's meal charging requirements are as follows.

Any student failing to keep his/her account solvent as required by the district shall not be allowed to charge further meals until the negative account balance has been paid in full. However, such students will be allowed to purchase a meal if the student pays for the meal when it is received. Students who have charged the maximum allowance to this account and cannot pay out of pocket for a meal will be provided an alternate meal consisting of a peanut butter, peanut butter alternative, or cheese sandwich and milk.

At least one written warning shall be provided to a student and his/her parent or guardian prior to denying meals for exceeding the district's charge limit. If the debt is not paid within 10 days of mailing the final notice of the negative account balance under policy DP, it shall be considered bad debt for the purposes of federal law concerning unpaid meal charges.

Payments for school meals may be made at the school or district office or online at TBD. Students, parents, and guardians of students are encouraged to prepay meal costs.

The district will provide a copy of this unpaid meal charges policy to all households at or before the start of school each year and to families and students that transfer into the district at the time of transfer. The terms of this policy will also be communicated to all district staff responsible for enforcing any aspect of the policy. Records of how and when it is communicated to households and staff will be retained.

Availability of Meals on Remote Learning Days Due to Severe Weather

When severe weather or poor road conditions due to ice and/or snow threaten the safety of students, the superintendent may close district schools or designate such days as remote learning days pursuant to policy EDDB. On these days, the superintendent will determine whether the weather and road conditions

allow for safe passage of students, staff, and parents for the provision, service, and transportation of school meals to students.

If the superintendent determines it is safe to provide meal service on these days, school meals will be provided, although the manner of provision may be modified by the superintendent. If the superintendent determines that it is not feasible due to safety concerns to provide meal service on such days, notice that school meals will not be available on that day will be provided to students, parents, and affected staff members. Any alteration of the usual meal service process on these days will be communicated to staff, students, and parents using Regular district communication channels.

Except as otherwise provided in this policy and board policies GAAC, JGEC, and KNA, any incident of discrimination in any form shall promptly be reported to an employee's immediate supervisor, the building principal, or the district compliance coordinator for investigation and corrective action by the building or district compliance officer. Complaints alleging discriminatory and/or harassing conduct on the part of the superintendent shall be addressed to the board of education.

Except as otherwise provided in board policy regarding complaints of discrimination on the basis of sex or regarding child nutrition programs, complaints about discrimination, including complaints of harassment, will be resolved through the following complaint procedures:

Informal Procedures

The building principal shall attempt to resolve complaints of discrimination or harassment in an informal manner at the building level. Any school employee who receives a complaint of such discrimination or harassment from a student, another employee, or any other individual shall inform the individual of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. The building principal shall discuss the complaint with the individual to determine if it can be resolved. If the matter is resolved to the satisfaction of the individual, the building principal shall document the nature of the complaint and the proposed resolution of the complaint and forward this record to the district compliance coordinator. Within 20 days after the complaint is resolved in this manner, the principal shall contact the complainant to determine if the resolution of the matter remains acceptable.

If the matter is not resolved to the satisfaction of the individual in the meeting with the principal, or if the individual does not believe the resolution remains acceptable, the individual may initiate a formal complaint.

Formal Complaint Procedures

- A formal complaint shall be filed in writing and contain the name and address of the person filing the complaint. The complaint shall briefly describe the alleged violation. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved through the informal procedures described herein, the building principal may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.

- A complaint should be filed as soon as possible after the conduct occurs but not later than 180 days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board may appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator, or another individual appointed by the board or the superintendent. The investigation shall be informal but thorough. The complainant and the respondent will be afforded an opportunity to submit written or oral evidence relevant to the complaint and to provide names of potential witnesses who may have useful information.
- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator, and a copy shall be forwarded to the complainant and the respondent within 30 days after the filing of the complaint. If the investigator anticipates a determination will not be issued within 30 days after the filing of the complaint, the investigator shall provide written notification to the parties including an anticipated deadline for completion. In no event shall the issuance of the written determination be delayed longer than 10 days from the conclusion of the investigation.
 - If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.
 - If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and state law will be followed.
- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.

Formal Complaint Appeal

- The complainant or respondent may appeal the determination of the complaint.
- Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board or superintendent, or by the board itself.

- The request to appeal the resolution shall be made within 20 days after the date of the written determination of the complaint at the lower level.
- The appeal officer shall review the evidence gathered by the investigator at the lower level and the investigator's report and shall afford the complainant and the respondent an opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed.
- The appeal officer will issue a written determination of the complaint's validity on appeal and a description of its resolution within 30 days after the appeal is filed.

If it is determined at any level that discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.

Use of the complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including avoiding prejudgment of the facts, conflicts of interest, and bias. Decision-makers shall

receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. Investigators shall receive training on issues of relevance of questions and evidence in order for them to create investigative reports that fairly summarize relevant evidence.

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to their immediate supervisor, building administrator, or Title IX Coordinator. Employees who fail to report complaints or incidents of sexual harassment to appropriate district officials may face disciplinary action. District officials who fail to investigate and take appropriate corrective action in response to complaints of sexual harassment may also face disciplinary action.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes sexual harassment under the definition outlined above. Unacceptable conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its severity, pervasiveness, and persistence. Behaviors which are unacceptable but do not constitute harassment may also result in employee discipline.

If discrimination or harassment has occurred, the district will take prompt, remedial action to stop it and prevent its reoccurrence.

The Title IX Coordinator shall promptly respond in a meaningful way to any reports of sexual discrimination including sexual harassment of which the district has actual knowledge as follows:

- Contact the complainant within 10 business days and discuss the availability of supportive measures, with or without the filing of a formal complaint, and consider the complainant's wishes as to supportive measures; and
- Inform the complainant of the right to a formal complaint investigation consistent with Title IX and the informal resolution process.

Supportive Measures

The district will treat the complainant and respondent equitably by offering supportive measures. These non-disciplinary and non-punitive measures will be offered as appropriate, as reasonably available, and without cost to the complainant or the respondent. Supportive measures are designed to restore or preserve equal access to the education program or activity without unreasonably burdening the other party. "Supportive Measures" shall include, but not be limited to, measures designed to protect the safety of all parties, to protect the district's educational environment, or to deter sexual harassment. These measures may include counseling, extensions of deadlines or course-related adjustments, modifications of work or class schedules, escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring, and other similar measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

The Formal Complaint

No investigation of alleged sexual harassment may occur until after a formal complaint has been filed.

A formal complaint is a document filed by the complainant or signed by the Title IX Coordinator alleging sexual harassment and requesting an investigation. The procedures for filing a formal complaint are as follows:

- At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in the education program or activity of the district concerning which the formal complaint is filed.
- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. Filing of the complaint with the Title IX Coordinator may be done in person, by mail, or by email. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved, the Title IX Coordinator may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 calendar days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- An investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board shall appoint an investigating officer. In other instances, the investigation shall be conducted by a qualified individual designated by the Title IX Coordinator or another individual appointed by the board. The investigation shall be thorough. All interested persons, including the complainant and the respondent, will be afforded an opportunity to submit written or oral evidence relevant to the complaint.

Formal Complaint Notice Requirements

Upon filing of a formal complaint, the district shall provide written notice to the known parties including:

- Notice of the allegations of sexual harassment including sufficient details to prepare a response before any initial interview including:
 - the identities of the parties involved, if known;
 - the conduct allegedly constituting sexual harassment; and
 - the date and location of the alleged incident, if known.
- The district's investigation procedures, including any informal resolution process;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;
- Notice to the parties they may have an advisor of their choice and may inspect and review any evidence; and
- Notice to the parties of any provision in the district's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included

in the notice initially provided, notice of the additional allegations shall be provided to known parties.

Formal Complaint Investigation Procedures

To ensure a complete and thorough investigation and to protect the parties, the investigator shall:

- Ensure that the preponderance of the evidence burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the district and not the parties;
- Provide an equal opportunity for the parties to present witnesses and evidence;
- Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
- Allow the parties to be accompanied with an advisor of the party's choice;
- Provide written notice of the date, time, location, participants, and purpose of any interview, meeting, or hearing at which a party is expected to participate;
- Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint, including the investigative report, and the opportunity to respond to that evidence before a determination is made;
- Be impartial and objectively evaluate all relevant evidence without relying on sex stereotypes;
- Not have conflicts of interest or bias for or against complainants or respondent;
- Not make credibility determinations based on the individual's status as complainant, respondent, or witness.

Formal Complaint Investigation Report

The investigator shall prepare an investigative report that fairly summarizes relevant evidence and share the report with the parties and their advisors for review and response.

Before completing the investigative report, the investigator must send each party and their advisors the investigative report for review and allow the parties 10 days to submit a written response for the investigator's consideration.

Decision-Maker's Determination

Upon receiving the investigator's report, the decision-maker must make a determination regarding responsibility and afford each party the opportunity to submit written, relevant questions that the parties want asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence. The decision-maker's written determination shall:

- Identify the allegations potentially constituting sexual harassment;
- Describe the procedural steps taken, including any notifications to the parties, site visits, methods used to gather evidence, and interviews;
- Include the findings of fact supporting the determination;

- Address any district policies and/or conduct rules which apply to the facts;
- A statement of, and rational for, the result as to each allegation, including a determination regarding responsibility; and
- The procedures and permissible bases for the complainant and/or respondent to appeal the determination.

The written determination may, but is not required to, recommend disciplinary sanctions and any remedies designed to preserve access to the educational program or activity that may be provided by the district to the complainant.

A copy of the written determination shall be provided to both parties simultaneously.

The range of disciplinary sanctions and remedies may include, but may not be limited to, supportive measures, short term suspension, long term suspension, expulsion for students, and/or termination for employees. Complainants and respondents shall be treated equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment has been made. The Title IX Coordinator is responsible for the effective implementation of any remedies. If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.

If the investigation results in a recommendation that an employee be suspended with or without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and/or state law will be followed.

Records relating to complaints filed and their resolution shall be maintained by the Title IX Coordinator for seven years.

The decision becomes final on the date the parties receive the results of an appeal, if any appeal is filed, or on the date the opportunity for an appeal expires.

Appeals

The complainant or respondent may appeal the decision-maker's determination regarding responsibility or a dismissal of a formal complaint, on the following base:

- Procedural irregularity that affected the outcomes;
- New evidence that was not reasonably available at the time that could affect the outcome; and/or
- The Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias against either party that affected the outcome.

The request to appeal shall be made in writing to the Title IX Coordinator within 10 days after the date of the written determination. Appeals shall be a review of the record by an attorney, an independent hearing officer appointed by the board, or the board. The appeal decision-maker may not be the Title IX Coordinator, the Investigator, or the decision-maker from the original determination.

The appeal decision-maker will issue a written decision within 30 days after the appeal is filed. The appeal decision-maker will describe the result of the appeal and the rationale for the result.

It may not be reproduced, either in whole or in part, in any form whatsoever, to be given, sold or transmitted to any person or entity including but not limited to another school district, organization, company or corporation without written permission from KASB.

The appeal decision-maker shall:

- Review the evidence gathered by the investigator, the investigator's report, and the original decision-maker's determination;
- Notify both parties in writing of the filing of an appeal and give them an opportunity to submit further evidence in writing;
- Not have a conflict of interest or bias for or against complainant or respondent and receive the required training;
- Issue a written decision and the rationale for the decision within 30 days after the appeal is filed;
- Describe the result of the appeal and the rationale for the result in the decision; and
- Provide the written decision simultaneously to both parties and to the Title IX Coordinator.

Informal Resolution Process

At any time during the formal complaint process and prior to reaching a determination regarding responsibility, the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process may be facilitated by a trained educational professional, consultant, or other individual selected by the Title IX Coordinator under the following conditions:

- The parties are provided a written notice disclosing the allegations, the requirements of the informal resolution process, information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;
- At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the investigation of the formal complaint and be informed of any consequences resulting from participating in the informal resolution process;
- The parties voluntarily and in writing consent to the informal resolution process; and
- The informal resolution process cannot be used to resolve allegations that an employee sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the proposed resolution, have both parties sign the documentation and receive a copy, and forward it to the Title IX Coordinator. Within 20 days after the complaint is resolved in this manner, the Title IX Coordinator shall contact the complainant to determine if the resolution of the matter remains acceptable. If the matter is not resolved, or if the individual does not believe the resolution remains acceptable within 20 days after the informal resolution document is executed, the individual or the Title IX Coordinator may proceed with the formal complaint process.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a

complaint, testifying, assisting, or participating in any investigation, proceeding, or appeal.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

Initiation of a complaint of sexual harassment in good faith will not adversely affect the job security or status of an employee, nor will it affect his or her compensation. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving sex discrimination including sexual harassment is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including termination of employment.

To the extent possible while still following the above procedures, confidentiality will be maintained throughout the investigation and resolution of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to provide supportive measures to both parties, to take appropriate corrective action, and to provide due process to the complainant and the respondent.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and the complaint procedures including how to report or file a formal complaint of sex discrimination or sexual harassment shall be posted in each district facility, shall be published in employee handbooks, and on the district's website as directed by the Title IX Coordinator. Notification of the policy may include posting information notices, publishing in local newspapers, publishing in newspapers and magazines operated by the school, or distributing memoranda or other written communications to students and employees. In addition, the district is required to include a statement of nondiscriminatory policy in any bulletins, announcements, publications, catalogs, application forms, or other recruitment materials that are made available to participants, students, applicants, or employees.

Employees who believe they have been subjected to racial or disability harassment should discuss the problem with their immediate supervisor. Employees who do not believe the matter is appropriately resolved through this meeting may file a formal complaint under the district's discrimination complaint procedure in policy KN.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial or disability harassment under the definition outlined above. GAAD

Any district employee who has reason to know or suspect a child has been injured as a result of physical, mental or emotional abuse or neglect or sexual abuse, shall promptly report the matter to the local Kansas Department for Children and Families (DCF) office or to the local law enforcement agency if the DCF office is not open. Employees may file a report of suspected abuse anonymously to either DCF by phoning 1-800-922-5330 or to local law enforcement officials. The Code for Care of Children also provides civil immunity from prosecution if the report is made in good faith.

DCF or Law Enforcement Access to Students on School Premises

The building principal shall allow a student to be interviewed by DCF or law enforcement representatives on school premises to investigate suspected child abuse and shall act as appropriate to facilitate the agency's access to the child and to protect the student's interests during the process. State law grants the investigating agency the authority to determine whether a school employee may be present while the interview is being conducted, taking into account the child's best interests. If asked to sit in on the interview by the agency representative conducting it, the building principal or designee thereof shall oblige such request in order to provide comfort to the child throughout the process and to facilitate the investigation.

The employee shall promptly report to the local DCF office or law enforcement if DCF is closed. It is recommended the building administrator also be notified after the report is made.

If the building principal has been notified, the principal shall immediately notify the superintendent that the initial report to DCF has been made. If appropriate, the principal may confer with the school's social worker, guidance counselor or psychologist. At no time shall the principal or any other staff member prevent or interfere with the making of a suspected child abuse report.

If available, the following information shall be given by the person making the initial report: name, address and age of the student; name and address of the parents or guardians; nature and extent of injuries or description of neglect or abuse; and any other information that might help establish the cause of the child's condition.

Use of Emergency Safety Interventions

It may not be reproduced, either in whole or in part, in any form whatsoever, to be given, sold or transmitted to any person or entity including but not limited to another school district, organization, company or corporation without written permission from KASB.

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to affect physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student's behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment, or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

ESI Restrictions

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition shall be indicated in a written statement from the student's licensed health care provider, a copy of which has been provided to the school and placed in the student's file.

Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. In spite of the provisions of this subsection, a student may be subjected to ESI, if not subjecting the student to ESI would result in significant physical harm to the student or others.

Use of Seclusion

When a student is placed in seclusion, a school employee shall see and hear the student at all times. The presence of another person in the area of purposeful isolation or observing the student from outside the area of purposeful isolation shall not create an exemption from otherwise reporting the incident as seclusion. When a student is placed in or otherwise directed to an area of purposeful isolation, the student shall have reason to believe that the student is prevented from leaving.

If the area of purposeful isolation is equipped with a locking door designed to prevent a student from leaving the area of purposeful isolation, the

door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the area of purposeful isolation, or in case of emergency, such as fire or severe weather.

An area of purposeful isolation shall be a safe place with proportional and similar characteristics as those of rooms where students frequent. Such area shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

Training

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

Notification and Documentation

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include:

(A) The events leading up to the incident;

- (B) student behaviors that necessitated the ESI;
- (C) steps taken to transition the student back into the educational setting;
- (D) the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI;
- (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident;
- (F) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and
- (G) email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year.

1. A copy of this policy which indicates when ESI can be used;
2. a flyer on the parent's rights;
3. information on the parent's right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and
4. information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas.

Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or upon the parent's written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent's preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. The documentation shall include all of the following:

Date and time of the ESI,

Type of ESI,

Length of time the ESI was used,

School personnel who participated in or supervised the ESI,

Whether the student had an individualized education program at the time of the incident,

Whether the student had a section 504 plan at the time of the incident, and

Whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

It may not be reproduced, either in whole or in part, in any form whatsoever, to be given, sold or transmitted to any person or entity including but not limited to another school district, organization, company or corporation without written permission from KASB.

Parent Right to Meeting on ESI Use

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan, such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior

assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action.

A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.

Workers Compensation (See KFD)

GAOE

The district will participate in workers compensation as required by current statute. The combined workers’ compensation benefits and salary

received under allowed sick leave, or other available leave, shall not exceed one full day's pay.

All employees of the district shall be covered by workers compensation. Workers compensation coverage is provided for all employees regardless of assignment, length of assignment, length of assignment, and/or hours worked per day. Benefits are for personal injury from accident or industrial diseases arising out of and in the course of employment in the district.

An injured employee must notify the designated employer's workers compensation coordinator or, if the coordinator is unavailable, his or her supervisor within 20 days of the injury or within 30 days of repetitive trauma in order to be eligible for benefits.

The workers compensation plan will provide coverage for medical expenses and wages to the extent required by statute to those employees who qualify; however, the amount of workers compensation benefits and sick leave benefits shall not exceed a regular daily rate of pay. An employee using sick leave, or other available leave, in combination with workers compensation will be charged for one full or partial day of paid leave, as provided for in the applicable leave policy or the negotiated agreement, for each day of absence until the employee's paid leave is exhausted.

Any employee who is off work and drawing workers compensation shall be required to provide the designated workers compensation coordinator with a written doctor's release before the employee is allowed to return to work. In addition, should the employee be released to return to work by a doctor and fail to do so, all benefits under sick leave shall terminate, and those benefits under workers compensation shall be restricted as provided by current statute.

Whenever an employee is absent from work and is receiving workers compensation benefits due to a work-related injury or is receiving district paid disability insurance, the employee may use available paid sick leave to supplement the workers compensation or district paid disability insurance payments. Workers compensation benefits and FMLA benefits provided in a board approved plan shall run concurrently if both are applicable.

In no event shall the employee be entitled to a combination of workers compensation benefits, district paid disability insurance, and salary in excess of his/her full salary. Available paid sick leave may be used for this purpose until 1) available paid sick leave benefits are exhausted; 2) the employee returns to work; or 3) employment is terminated. Sick leave shall be calculated on a prorata amount equal to the percentage of salary paid by the district.

Testing

The Board, through its designated workers compensation coordinator, may require a post-injury chemical test as authorized by KSA 44-501 et seq., and, if such test is refused, all workers compensation benefits shall be forfeited by the employee.

Choice of Physician

The board shall have the right to choose a designated health care provider to provide medical assistance to any employee who suffers an injury while performing their job. However, if the injured employee refuses to use the designated provider, benefits will be limited to \$500.00.

Whenever an employee has been diagnosed by a physician as having a communicable disease as defined in current regulation, the employee shall report the diagnosis and nature of the disease to the superintendent so that a proper reporting may be made to the county or joint board of health as required by statute.

An employee afflicted with a communicable disease dangerous to the public health shall be suspended from duty for the duration of the contagiousness in order to give maximum health protection to other district employees and to students.

The employee shall be allowed to return to duty upon recovery from the illness, or the employee is no longer contagious as authorized by the employee's physician.

The board reserves the right to require a written statement from the employee's physician indicating that the employee is free from all symptoms of the communicable disease.

If a school employee has been diagnosed as having a communicable disease and the superintendent has been notified by the employee, the superintendent or the superintendent's designee shall determine whether a release shall be obtained from the employee's physician or local health officer before the employee returns to duty.

Decisions regarding the type of employment setting for an employee with a communicable disease shall be made by the superintendent or the superintendent's designee based upon consideration of the physical condition of the employee and the following factors:

- The nature of the risk;
- The duration of the risk;
- The severity of the risk; and
- The probability that the disease will be transmitted or cause harm to the employee or to others who will share the same setting.

No information regarding employees with communicable diseases

shall be released by school personnel without the employee's consent except as allowed by state or federal law.

Additional Certifications of Health

Military Leave

GARID

Employees are entitled to military leave under the Uniformed Services Employment and Reemployment Rights Act of 1994. The Act applies to military service that began on or after December 12, 1994, or military service that began before December 12, 1994, if the employee was a reservist or National Guard member who provided notice to the employer before leaving work.

Reemployment rights extend to persons who have been absent from work because of "service in the uniformed services." The uniformed services consist of the following military branches:

- Army, Navy, Marine Corps, Air Force or Coast Guard.
- Army Reserve, Navy Reserve, Marine Corps Reserve, Air Force Reserve or Coast Guard Reserve.
- Army National Guard or Air National Guard.

It may not be reproduced, either in whole or in part, in any form whatsoever, to be given, sold or transmitted to any person or entity including but not limited to another school district, organization, company or corporation without written permission from KASB.

- Commissioned corps of the Public Health Service.
- Any other category of persons designated by the President in time of war or emergency.

“Service” in the uniformed services means duty on a voluntary or involuntary basis in a uniformed service, including:

- Active duty.
- Active duty for training.
- Initial active duty for training.
- Inactive duty training.
- Full-time National Guard duty.
- Absence from work for an examination to determine a person’s fitness for any of the above types of duty.

The employee may be absent for up to five (5) years for military duty and retain reemployment rights. There are, however, exceptions which can exceed the five (5) years limit. Reemployment protection does not depend on the timing, frequency, duration or nature of an individual’s service. The law enhances protections for disabled veterans including a requirement to provide reasonable accommodations and up to two (2) years to return to work if convalescing from injuries received during service or training.

The returning employee is entitled to be reemployed in the job that they would have attained had they not been absent for military service, with the same seniority, status and pay, as well as other rights and benefits determined by seniority. If necessary, the employer must provide training or retraining that enables the employee to refresh or upgrade their skills so they can qualify for reemployment. While the individual is performing military service, he or she is deemed to be on a furlough or leave of absence and is entitled to the non-seniority rights accorded other individuals on non-military leaves of absence. Individuals performing military duty of more than 30 days may elect to continue employer sponsored health care for up to 24 months at a cost of up to 102 percent of the full premium. For military service of less than 31 days, health care coverage is provided as if the individual had never left. All pensions which are a reward for length of service are protected.

Individuals must provide advance written or verbal notice to their employers for all military duty. Notice may be provided by the employee or by the branch of the military in which the individual will be serving.

Notice is not required if military necessity prevents the giving of notice; or, the giving of notice is otherwise impossible or unreasonable.

Accrued vacation or annual leave may be used, but is not required, while performing military duty. The individual’s timeframe for returning to work is based upon the time spent on military duty.

TIME SPENT ON MILITARY DUTY	RETURN TO WORK OR APPLICATION FOR REEMPLOYMENT
Less than 31 days:	Must return at the beginning of the next regularly scheduled work period on the first full day after release from service, taking into account safe travel home plus an eight (8) hour rest period.
More than 30 but less than 181 days:	Must submit an application for reemployment within 14 days of release from service.
More than 180 days:	Must submit an application for reemployment within 90 days of release from service.

The individual's separation from service must be under honorable conditions in order for the person to be entitled to reemployment rights. Documentation showing eligibility for reemployment can be required. The employer has the right to request that an individual who is absent for a period of service of 31 days or more provide documentation showing:

- The application for reemployment is timely;
- the five-year service limitation has not been exceeded; and,
- separation from service was under honorable conditions.

If documentation is not readily available or it does not exist, the individual must be reemployed. However, if after reemploying the individual, documentation becomes available that shows one or more reemployment requirements were not met, the employer may terminate the individual, effective immediately. The termination does not operate retroactively.

Questions regarding military leave should be directed to Veterans' Employment and Training Service, U.S. Department of Labor.

Kansas law also requires reemployment if an individual is called to active duty by the state.

Staff Use of Communication Devices (See IIBG and IIBGC)

GAT

The board encourages district employees to use technology, including communication devices, to improve efficiency and safety. The district expects all employees to use communication devices in a responsible manner that does not interfere with the employee's job duties. Employees who violate district policies and procedures governing the use of communication devices may be disciplined, up to and including termination, and may be prohibited from possessing or using

communication devices while at work. Communication devices may not be used in any manner that would violate the district's policy on student-staff relations.

Definitions

“Communication device” is defined to include all portable devices that send or receive calls or text messages, allow the retrieval of email, or provide access to the Internet. Communication devices shall include, but may not be limited to cell phones, smart phones, iPads, and tablets.

“Use/Using” for the purposes of this policy mean answering or talking on the phone; sending or responding to a text, e-mail, or other communication; opening and viewing pictures or digital recordings; opening and listening to music or audio communications; accessing social media websites; playing games on such device; continuously checking a communication device; or any activity with a communication device that interferes with the employee’s job duties or appropriate supervision of students.

General Use

The district prohibits employees from using any communication device that interrupts or disrupts the performance of duties by the employee or otherwise interferes with district operations, as determined by the employee's supervisor. This prohibition applies regardless of whether the communication device used is owned by the employee or provided by the district. Employees are responsible for keeping communication devices secure and, if possible, password protected.

Supervision of students and the provision of academic instruction are priorities in the district, and employees who are responsible for supervising and/or providing academic instruction to students must concentrate on these tasks at all times. Employees shall not use communication devices when they are responsible for supervising students or when their doing so interrupts or interferes with classroom instruction unless any of the following conditions occurs:

- The device is being used to instruct the students being supervised at the time;
- The use is necessary to the performance of an employment-related duty;
- The employee has received specific and direct permission from a supervisor to do so; or
- There is an emergency.

Staff Use of Communication Devices

Even when these conditions exist, the employee is responsible for obtaining assistance in adequately supervising students during the approved use so that students are supervised at all times.

Regardless of other provisions of this policy, unless there is an emergency, employees shall not use communication devices when:

- Driving district-provided vehicles;
- Operating a vehicle in which a student is being transported when the transportation is provided as part of the employee's job; or

- Supervising students who are entering or exiting a vehicle, crossing thoroughfares, or are otherwise attempting to safely reach their destinations.

Even in emergency situations, employees should first take all possible safety precautions before using communication devices. Employees are subject to local, state, and federal laws governing use of cell phones while driving and will be solely responsible for all traffic violation liabilities resulting from their use of a phone while driving.

Use of District-Provided Communication Devices

The district may provide communication devices and service to some employees to assist them in carrying out their employment-related duties on and off district property. Use of a district-provided communication device is a privilege. The superintendent or designee has sole discretion as to which employees will be provided communication devices and may recall any previously issued communication device. Employees do not have any expectation of privacy in district-provided communication devices or any information stored on them, and such devices may be confiscated and searched at any time.

Employees are expected to exercise reasonable care to protect district-provided communication devices from damage or theft and must report any such incidents immediately. The district may require employees to reimburse the district for any damage or theft that was the result of the employee's negligence. Users of district-provided communication devices must abide by any use limitations included in the district's service contract.

Personal Use of District-Provided Communication Devices

Personal use of district-provided communication devices is permissible as long as the use does not exceed the limits of the applicable plan. An employee whose use exceeds plan limitations will be required to reimburse the district for all expenses beyond those covered by the plan and may have privileges suspended or revoked unless the employee can show that all use was for employment-related duties and the device was not used for personal reasons. The amount of personal use of a communication device or service paid for under E-Rate can be no greater than the cost allocation submitted in the request for the E-Rate discount.

Staff Bring Your Own Device Policy

Use of employees' personal communication devices during work hours shall be restricted to classroom or work-related activities. Such personal communication devices may only be used by the staff member and are not for student use. The security of personal computing devices is solely the responsibility of the staff member. Any loss resulting from damage or theft of personal communication devices in the school setting is not the responsibility of the district.

The primary purpose of the early retirement program is to maintain the best possible level of instruction, maintenance of plant and facilities, or providing top services for the students and patrons of the district. Secondary purposes of the program are to reward employees for their service to the district, to enhance the benefits of employment in the district and to facilitate the necessary and/or desirable early retirement of employees.

Regulations and Guidelines for Early Retirement

A. Eligibility - All employees are eligible for early retirement if such employee is currently a full time employee of the district, has served a minimum of 20 years of full time service for USD #340, is not less than 55 years of age and not more than 64 years of age (July 1, 2002).

B. Application - An employee may apply for early retirement by giving written notice to the Superintendent. Such written notice shall be given on or before April 1. Retirement date is to be considered the following school fiscal year. Following final action by the Board of Education on any application for early retirement, the Superintendent shall notify the applicant, in writing, of the final disposition and the date and amount of the annual early retirement benefits to be paid.

C. Benefits - An eligible employee who takes early retirement will, for a maximum of five years, be entitled to receive annually from the school district a sum of money (early retirement benefit) contingent upon, the employee's final salary. Board will not discontinue the program for the duration of the 2001-2003 agreement.

b. Any applicant meeting the requirements shall be granted such benefits by the Board of Education if the program is adopted for the following year.

c. Should the Board decide not to adopt the early retirement incentive program in any given year, all staff members who were on the program prior to the non-adoption will continue on the program until the completion of the contract year in which the employee reaches the age of 65.

d. If any provision of this early retirement plan is determined to be in violation of federal or state laws or regulations, then the entire plan shall immediately terminate and shall be of no further force or effect unless re-adopted by the Board of Education.

e. An employee who takes early retirement shall have the responsibility to keep the school district informed of his or her current mailing address and telephone number.

f. Early retirement benefits shall cease upon the employee reaching 65 years of age or the death of the retired employee.

g. Employees reaching their qualifying age prior to September 1st will receive their first check within the month of September. Employees reaching their qualifying age after September 1st thru December 31st will receive their first check the month after reaching the qualifying age.

All remaining checks will be mailed out or may be picked up only by the retiree on the regular monthly payroll dates.

i. Eligibility of early retirement will be determined by the Central Office of USD #340. An employee applying for early retirement shall have the responsibility to provide all facts and information necessary to prove eligibility. The form for application will be provided by the Central Office.

j. In the event the Board of Education would increase the index percentage at any given year, those employees already retired and having some years left on their retirement benefit would also receive this newly approved index figure for their remaining years of eligibility. In the event the Board of Education would decrease the index percentage at any given year, those employees already participating in the retirement plan will not drop below the index percentage established when they entered the program.

k. Insurance coverage will be provided as state statutes and Board of Education policy allow. USD #340 Board of Education will allow any retiree to remain a part of the existing group plan(s) until said employee becomes 65 years of age. The retiree will have to pay for his monthly premium(s) and the amount will be deducted from his monthly early retirement benefit, or if the employee has exhausted the 5 year time period of the early retirement plan, the retiree may stay in the existing group until the age of 65 as long as the retiree pays 100% of the monthly premium(s). In the event the current staff would opt to change to a different company or change benefits, change coverage or change deductibles, the retiree would have the option of continuing with this new group plan(s) or new company, but would not be permitted to vote on any changes.

Unless the District can show a monetary savings to the district, the Board will use one of the three recommended providers.

Impact of Simultaneous Requests

If more than one request for review is received simultaneously, or, if one or more requests for review is received while another review is pending, timelines established in this policy may be extended by the superintendent or the board to allow the requests to be processed in turn. When more than one request for review is received on the same book or material, such requests may be consolidated to reduce redundancy in review at any stage of this process.

Classroom Displays

IFA

(See IKD, IKDA and KN)

Materials displayed in and around a classroom are generally considered instructional materials and must comply with board policy. They may be selected by the classroom teacher but should be grade-level appropriate and align with the subject-matter being taught. Materials or displays not meeting these criteria are subject to removal by the principal.

Classrooms are not public forums for the display or distribution of political, religious, or personal viewpoints. Employees may not use classrooms for the posting or display of materials to promote or convey a political, religious, or personal message.

This policy does not require a principal to remove photos, decorations, or other personal items from a teacher's desk or surrounding area as long as the items do not disrupt the learning process.

The form shall include the nature of the trip, departure time, expected return time, name of sponsor(s), cost and mode of travel. The form shall also include a space where a parent may ask that a child be excused and the reason for the excuse. Non-sanctioned field trips organized by employees acting as independent contractors/agents involving students on a volunteer, self-supporting basis are not approved by the board and are not considered a part of the curriculum. Total responsibility for privately planned field trips or tours rests with the individual(s) and agency sponsoring them. The district assumes no legal or financial responsibilities for non-sanctioned field trips.

Every attempt should be made to schedule non-board approved trips during weekends and/or vacation periods. If travel arrangements necessitate that some school days are missed, normal procedures for staff and students absences must be followed.

If recruitment of students is sought through the school(s), the request for recruitment shall be made in accordance with those of private citizens. Recruitment efforts may not occur during class time.

Performance-Based Credits

IIA

A student may earn credits towards high school graduation by demonstrating mastery of the course outcomes through a performance instrument. The standards for designing and passing the performance instrument shall be set sufficiently high to ensure credits earned by such means shall be equivalent to those offered in the framework of the Carnegie unit.

A written request to "test out" of a class must be submitted prior to the beginning of each semester/year. A student may not request to "test out" of a class in which he or she is currently enrolled or has been enrolled.

The request is to be evaluated within 30 school days by a review committee composed of: a building administrator, a school counselor, a faculty member appointed by the principal and the students' parent(s) or guardian(s).

If the request is approved, the course instructor will have 30 school days to design a performance instrument that reflects mastery of all course outcomes. Commercially available instruments may be used if they cover all course objectives. A performance instrument shall be approved by the principal. The principal, in consultation with the instructor, will determine the setting and the timelines for the administration of the instrument, as well as the criteria for successful completion of those tasks.

The student has {10} ten school days in which those designated tasks developed by the teacher and approved by the administration must be performed.

Credit for such classes shall be awarded only on a pass/fail basis. Students will be allowed only one opportunity to “test out” of any particular class. It will not be the responsibility of the school or the instructor to provide instructional and/or review time for the student. However, the outcomes, as noted in the district curriculum guide, and class syllabus will be made available.

Graduation Credit Through Integrated Coursework

The board may allow graduation credit for integrated academic or career and technical education course work. The teacher awarding academic credit shall be fully licensed and may work collaboratively with another instructor to develop a course plan for instruction. The teacher shall monitor the student’s progress and level of achievement. The plan will be reviewed periodically to maintain rigor and relevance.

Credit Through Alternative Educational Opportunities

Students enrolled in grades six through twelve may earn course credits through alternative educational opportunities with sponsoring entities. For the purpose of this policy, terms have the following meanings.

- “Alternative educational opportunity” means instruction that primarily occurs outside the classroom with a sponsoring entity.
- “Sponsoring entity” means a business, not-for-profit organization, nonprofit organization, trade association, parent of a student, teacher, or administrator that partners with a school district to provide an alternative educational opportunity to students.

Eligibility Requirements for Sponsoring Entities

The board may accept a proposal from a sponsoring entity if the alternative educational opportunity provided by the sponsoring entity provides an additional learning opportunity for students through a work-based, pre-apprenticeship, apprenticeship, internship, industry certification, or community program; and either the proposal is approved by the state board of education as an alternative educational opportunity, or it complies with the requirements of this policy regarding such opportunities.

Requirements for the Provision of Alternative Educational Opportunities

Each approved alternative educational opportunity with a sponsoring entity shall be managed and directed by a licensed teacher employed by the school district. The teacher may work collaboratively with the principal, the sponsoring entity, or another teacher to develop a course plan for instruction with learning outcomes identified. The teacher shall monitor the student’s progress and level of achievement based on this plan. The plan will be reviewed periodically and adjusted as needed to promote a quality learning experience. The principal shall provide a report annually, or as requested, to the superintendent evaluating the additional educational opportunity provided to participating students and making recommendations to the superintendent on continuation, termination, or modification of the opportunity.

Processes for Submitting a Proposal for an Additional Educational Opportunity

Sponsoring entities wishing to partner with the district to provide additional educational opportunities to students, shall submit a proposal to the superintendent outlining the contact information and credentials of the person(s) that would be working directly with the student participants in this experience;

©KASB. This material may be reproduced for use in the district. It may not be reproduced, either in whole or in part, in any form whatsoever, to be given, sold or transmitted to any person or entity including but not limited to another school district, organization, company or corporation without written permission from KASB.

educational goals for the partnership; any time, place, manner, and number of participant restrictions regarding how the learning opportunity would be provided; proposed learning outcomes for participating students; and any details regarding prerequisite coursework, certification, or experience a candidate for this experience should possess prior to entering the program.

Criteria for Evaluating Such Proposals

Prior to making a recommendation to the board on whether the district should partner with or continue to partner with a sponsoring entity, the superintendent shall review the proposed alternative educational opportunity in comparison with the board approved curriculum and goals, consulting other staff members as necessary in that process. Before recommending action to continue such partnership from year-to-year, the superintendent may seek and shall review any available reports on the opportunity provided by the principal in accordance with this policy.

The board should consider the recommendation of the superintendent in determining whether to partner with or continue partnership with a sponsoring entity. In order for the board to partner with a sponsoring entity and to maintain such partnership, the sponsoring entity must first meet the eligibility requirements as outlined in this policy.

Additional considerations weighing into the decision to partner with a sponsoring entity may include, but may not be limited to: whether the learning experience meets the curricular, rigor, and relevance needs of the student and/or the district; qualifications, experience, reputation, and responsibility of the sponsoring entity and/or individuals that would be working directly with students; related costs for the district, regarding the provision of transportation, equipment, human resources to monitor the experience, etc.; space and time constraints if the experience will be provided in district facilities; student and staff safety; the need for and/or availability of insurance coverage, as applicable; effect on other district course offerings and activities; and student interest. As the welfare of students is of paramount importance to the board, the district reserves the right to complete background checks on any individuals working directly with students on behalf of the sponsoring entity and to base decisions on entering or exiting such a partnership, in whole or in part, on the results thereof.

Determining the Course Credit that May Be Earned Through These Opportunities

The superintendent may develop procedures for review of the experience and the award of credit in accordance with board approved curriculum. The superintendent may award credit for the experience as deemed appropriate for district elective offerings based on meeting local standards for those offerings. In order for any alternative educational experience to be approved for credit in a state-required course, such experience must meet all applicable statutory, regulatory, and Kansas State Board of Education approved standards for award of such credit.

State Reporting Requirements

The superintendent or the superintendent's designee shall make reports to the Kansas State Department of Education as required thereby. Such reports will include information regarding the alternative educational opportunities

Enrollment

JBC

(See IIBGB, JBCA, JBCB, JBCC, and JQKA)

Resident Students

A “resident student” is any child who has attained the age of eligibility for school attendance and lives with a parent or a person acting as a parent who is a resident of the district. Children who are “homeless” as defined by Kansas law and who are located in the district will be admitted as resident students. For purposes of this policy, “parent” means the natural parents, adoptive parents, step-parents, and foster parents. For purposes of this policy, “person acting as a parent” means a guardian or conservator, a person liable by law to care for or support the child, a person who has actual care and control of the child and provides a major portion of support, or a person who has actual care and control of the child with written consent of a person who has legal custody of the child.

Nonresident Students

Details concerning the enrollment and continued enrollment process for nonresident students may be found in board policy JBCC.

Enrollment Restriction

Unless approved in advance by the board, no student, regardless of residency, who has been suspended or expelled from another school district will be admitted to the district until the period of such suspension or expulsion has expired.

Enrollment Procedures

The superintendent shall establish orderly procedures for enrolling all students, including pre-enrollment, changes in enrollment, normal enrollment times, and communication to parents and to the public.

Part-Time Students

The board allows any child to enroll part-time in the school district to allow the student to attend any courses, programs, or services offered by the school district if the child:

- Is also enrolled in a nonaccredited private elementary or secondary school or in any other private, denominational, or parochial school as required by law;
- requests to enroll part-time in the school district; and
- meets the age of eligibility requirements for school attendance.

District administrators shall make a good faith attempt to accommodate scheduling requests of students enrolling in the school district in these situations but shall not be required to make adjustments to accommodate every such request.

Enrollment

JBC

Part-time students, other than those specified previously in this policy may enroll with the administration's permission if they complete all paperwork in a timely fashion and are in attendance no later than _____. (Insert date) Such part-time students may be admitted only to the extent that staff, facilities, equipment, and supplies are available, and the students follow the district's student conduct policies and rules.

Identification of Students

All students enrolling in the district for the first time shall provide required proof of identity. Students enrolling in kindergarten or first grade shall provide a certified copy of their birth certificate, a certified copy of the court order placing the child in the custody of the Secretary of the Department for Children and Families, or

other documentation which the board determines to be satisfactory. Students enrolling in grades 2-12 shall provide a certified transcript, similar pupil records or data, or other documentary evidence the board deems satisfactory.

The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the McKinney-Vento Act as amended by ESSA. The district shall work with the Department for Children and Families, the school last attended, or other relevant agencies to obtain necessary enrollment documentation.

If proper proof of identity is not provided within 30 days of enrolling, the superintendent shall notify local law enforcement officials as required by law and shall not notify any person claiming custody of the child.

Enrollment Information

The enrollment documentation shall include a student's permanent record card with a student's legal name as it appears on the birth certificate or as changed by a court order and the name, address, and telephone number of the lawful custodian. The records shall also provide proper proof of identity.

Assignment to a School Building, Grade Level, or Classes

Unless otherwise provided herein, the superintendent shall assign students to the appropriate building. Any student desiring to attend a school outside the attendance area in which the student resides may do so only with the prior written permission of the superintendent.

If required by law, students placed in foster care or students who are homeless may be educated in their "school of origin" instead of the building corresponding to the assigned attendance area. (For definition of "school of origin", see regulations for JBCA and JBCB.)

Enrollment

JBC

Assignment to a particular grade level or particular classes shall be determined by the building principal based on the educational abilities of the student. If the parents disagree, the principal's decision may be appealed to the superintendent. If the parents are still dissatisfied with the assignment, they may appeal in writing to the board.

JBCA HOMELESS STUDENTS

Homeless Student Regulations Required by Federal and State Law

NOTE: This document **MUST** be approved by board action to become policy. File with clerk, distribute to principals, and duplicate as necessary in district newsletters and other documents.

Homeless students shall, by definition, include the following:

1. Children and youth who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals.
2. Children and youth who have a primary nighttime residence that is a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings.
3. Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings.
4. Migratory children who meet one of the above-described circumstances.

Enrollment/Placement (See JBC)

The district, according to the child's or youth's best interest, shall either continue the child's or youth's education in the school of origin for the duration of homelessness in any case in which: 1) a family becomes homeless between academic years or during an academic year; and 2) for the remainder of the academic year, if the child or youth becomes permanently housed during an academic year; or enroll the child or youth in any public school that nonhomeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.

School Stability

In determining the best interest of the child or youth, the district homeless student liaison shall:

- 1) presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;
- 2) consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth;
- 3) if, after conducting the best interest determination based on consideration of the presumption in clause (1) and the student-

centered factors in clause (2), it is determined that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal such determination; and

- 4) in the case of an unaccompanied youth, ensure that the district homeless student liaison assists in placement or enrollment decisions under this subparagraph, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

Immediate Enrollment

The school selected shall immediately enroll the homeless child or youth, even if the child or youth:

- 1) is unable to produce records normally required for enrollment, such as previous academic records, records of immunization and other required health records, proof of residency, or other documentation; or
- 2) has missed application or enrollment deadlines during any period of homelessness.

Relevant Academic Records

The enrolling school shall immediately contact the school last attended by the child or youth to obtain relevant academic and other records.

Relevant Health Records

If the child or youth needs to obtain immunizations or other required health records, the enrolling school shall immediately refer the parent or guardian of the child or youth, or (in the case of an unaccompanied youth) the youth, to the district homeless student liaison, who shall assist in obtaining necessary immunizations or screenings, or immunization or other required health records.

Records

Any record ordinarily kept by the school, including immunization or other required health records, academic records, birth certificates, guardianship records, and evaluations for special services or programs, regarding each homeless child or youth shall be maintained so that the records involved are available, in a timely fashion, when a child or youth enters a new school or school district and in a manner consistent with the Family Educational Rights and Privacy Act. See policies JR through JRD.

Enrollment Disputes

If a dispute arises over eligibility, school selection, or enrollment in a school:

- 1) the child or youth shall be immediately enrolled in the school in which enrollment is sought (whether sought by the parent, guardian, or unaccompanied youth), pending final resolution of the dispute, including all available appeals;

- 2) the parent or guardian of the child or youth or (in the case of an unaccompanied youth) the youth shall be provided with a written explanation of any decisions related to school selection or enrollment made by the school, the local educational agency, or the State educational agency involved, including the rights of the parent, guardian, or unaccompanied youth to appeal such decisions; and
- 3) the parent, guardian, or unaccompanied youth shall be referred to the district homeless student liaison, who shall carry out the dispute resolution process as expeditiously as possible after receiving notice of the dispute.

Placement Choice

The choice regarding placement shall be made regardless of whether the child or youth lives with the homeless parents or has been temporarily placed elsewhere.

Privacy

Information about a homeless child's or youth's living situation shall be treated as a student education record, and shall not be deemed to be directory information, under policy JRB.

Contact Information

Nothing shall prohibit the district from requiring a parent or guardian of a homeless child or youth to submit contact information.

Definition

The term "school of origin" means the school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool.

When the child or youth completes the final grade level served by the school of origin, the term "school of origin" shall include the designated receiving school at the next grade level for all feeder schools.

Comparable Services

Each homeless child or youth shall be provided services comparable to services offered to other students in the school selected, including:

- 1) Transportation services;
- 2) Educational services for which the child or youth meets the eligibility criteria, such as services provided under title I of the Elementary and Secondary Education Act of 1965 or similar State or local programs, educational programs for children with disabilities, and educational programs for English learners;
- 3) Programs in career and technical education;
- 4) Programs for gifted and talented students; and
- 5) School nutrition programs.

Coordination

The district shall coordinate the provision of services under these regulations with the Department for Children and Families and other agencies or entities providing services to homeless children and youths and their families,

including services and programs funded under the Runaway and Homeless Youth Act (42 U.S.C. 5701 et seq.), and transportation, transfer of school records, and other interdistrict activities, with other local educational agencies.

Housing Assistance

If applicable, the district shall coordinate with state and local housing agencies responsible for developing the comprehensive housing affordability strategy to minimize educational disruption for children and youths who become homeless.

The coordination required shall be designed to:

- 1) ensure that all homeless children and youths are promptly identified;
- 2) ensure that all homeless children and youths have access to, and are in reasonable proximity to, available education and related support services; and
- 3) raise the awareness of school personnel and service providers of the effects of short-term stays in a shelter and other challenges associated with homelessness.

Homeless Children and Youths With Disabilities

For children and youths who are both homeless and eligible for services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), the district shall coordinate the provision of services under these regulations with the provision of programs for children with disabilities served by the district and other involved local educational agencies.

District Homeless Student Liaison

The board designates the following individual to act as the district's homeless student liaison: (Name of Office) (Business Address) (Phone-Fax). The district shall inform school personnel, service providers, and advocates working with homeless families of the duties of this liaison.

The district homeless student liaison shall ensure:

- 1) homeless children and youths are identified by school personnel through outreach and coordination activities with other entities and agencies;
- 2) homeless children and youths are enrolled in, and have a full and equal opportunity to succeed in, district schools;
- 3) homeless families and homeless children and youths have access to and receive educational services for which such families, children, and youths are eligible, including services through Head Start programs (including Early Head Start programs) under the Head Start Act (42 U.S.C. 9831 et seq.), early intervention services under part C of the Individuals with Disabilities Education Act (20 U.S.C. 1431 et seq.), and other preschool programs administered by the local educational agency;
- 4) homeless families and homeless children and youths receive referrals to health care services, dental services, mental health and substance abuse services, housing services, and other appropriate services;
- 5) the parents or guardians of homeless children and youths are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children;

- 6) public notice of the educational rights of homeless children and youths is disseminated in locations frequented by parents or guardians of such children and youths, and unaccompanied youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form understandable to the parents and guardians of homeless children and youths, and unaccompanied youths;
- 7) enrollment disputes are mediated in accordance with these regulations;
- 8) the parent or guardian of a homeless child or youth, and any unaccompanied youth, is fully informed of all transportation services, including transportation to the school of origin, and is assisted in accessing transportation to the school that is selected;
- 9) school personnel providing services under these regulations receive professional development and other support; and
- 10) unaccompanied youths:
 - a. are enrolled in school;
 - b. have opportunities to meet the same challenging state academic standards as Kansas establishes for other children and youth; and
 - c. are informed of their status as independent students under federal law regarding student financial assistance for higher education acquisition and that the youths may obtain assistance from the district homeless student liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid.

The liaison shall also work with the state coordinator for education of homeless children and youth to request and receive needed technical assistance and monitoring to ensure the district complies with federal and state law regarding homeless students. Similarly, the liaison will coordinate with the state coordinator in order to provide professional development opportunities for district personnel to aid them in identifying and meeting the needs of homeless children and youths and will respond to inquiries from parents, guardians, and homeless children and youths to ensure they are provided with the full protection of the law and services they are due.

Notice

The district shall inform school personnel, service providers, advocates working with homeless families, parents and guardians of homeless children and youths, and homeless children and youths of the duties of the district homeless student liaison, and publish annually updated contact information for the liaison on the district's website.

Local and State Coordination

The district homeless student liaison, as a part of assigned duties, shall coordinate and collaborate with state coordinators, the community, and school personnel responsible for the provision of education and related services to homeless children and youths. Such coordination shall include collecting and providing to the state coordinator the reliable, valid, and comprehensive data.

Homeless Status

The district homeless student liaison may affirm, without further agency action by the Department of Housing and Urban Development, that a child or youth who is eligible for and participating in a program provided by the district, or the immediate family of such a child or youth, who meets the eligibility requirements, is eligible for such program or service.

Dispute Resolution Process

A complaint regarding the placement or education of a homeless child or youth shall first be presented orally and informally to the district's homeless student liaison. If the complaint is not promptly resolved, the complainant may present a formal written complaint (grievance) to the homeless student liaison. The written complaint must include the following information: date of filing, description of concerns, the name of the person or persons involved, and a recapitulation of the action taken during the informal charge stage. Within five (5) working days after receiving the complaint, the liaison shall state a decision in writing to the complainant, with supporting evidence and reasons. In addition, the liaison will inform the superintendent of the formal complaint and the disposition.

Transportation (See EDAA, JBC and JGG)

If it is in the best interest of the homeless child or youth to attend the school of origin, transportation to and from that school will be provided at the request of the parent or guardian or, in the case of an unaccompanied youth, the homeless coordinator. If the student's temporary housing is outside the attendance area of the school of origin, then the district will work with the school of origin to agree on a method to apportion the responsibility and costs for transporting the child. If an agreement cannot be reached, the costs will be shared equally.

JBCB Foster Care Students (See EDAA, JBC, and JBCA)

JBCB

The district, in accordance with state and federal law and the Kansas state plan, will ensure students placed in foster care within the school district have access to a public education in a stable educational environment. For the purposes of this policy and its applicable regulations, “foster care” means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties.

Point of Contact

The board shall designate an employee to serve as a point of contact for child welfare agencies on behalf of the district.

Mobile Crisis Helpline

Crisis support for Kansas families and children to resolve an emotional, psychiatric, or behavioral health crisis is available through the Department of Children and Families Mobile Crisis Helpline, 1-833-441-2240, including:

- Problem solving to resolve behavioral health crisis;
- Referral to community resources or recommendation to engage in stabilization services;
- In-person support via mobile crisis response; and
- Contacting mobile crisis response unit to assist in emergency situations.

**Foster Care Student Regulations
To Aid In Implementation of Federal Law**

NOTE: This document MUST be approved by board action to become policy. File with clerk, distribute to principals, and duplicate as necessary in district newsletters and other documents.

The Every Student Succeeds Act (“ESSA”) addresses additional protections for students in foster care and establishes a system of joint responsibility for school districts, the Kansas State Department of Education (“KSDE”), and the Kansas Department for Children and Families (“DCF”) to ensure the educational stability of students in foster care.

For the purposes of these regulations, “foster care” means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child-care institutions, and pre-adoptive homes.

Transportation of Students in Foster Care

ESSA requires each Kansas school district to collaborate with child welfare agencies, such as DCF and tribal child welfare agencies, to develop and implement clear, written procedures for how transportation to maintain a student in foster

care in his or her school of origin (when in the student's best interest) will be provided, arranged, and funded. The procedures must ensure that the transportation will be provided promptly, in a cost-effective manner, and in accordance with federal law. Also, they must address how additional costs will be absorbed. Therefore, if there are any additional costs incurred to maintain a foster care student in his or her school of origin, the district will provide the transportation if:

1. DCF agrees to reimburse the district for the additional costs;
2. The district agrees to pay the additional costs; or
3. DCF and the district split the additional costs.

Upon request, the district will provide an assurance to KSDE that the district has transportation procedures meeting the above requirements.

Additional Costs

"Additional costs" reflect the difference between what the district would spend to transport a student to the assigned school and the cost of transporting a student in foster care to his or her school of origin. Title I, Part A funds may be used to pay for additional transportation costs in Title I districts.

School of Origin

The "school of origin" is the school in which a student is enrolled at the time of placement in foster care or of a change in placement. A student in foster care is entitled to remain enrolled in his or her school of origin unless it is determined not to be in the student's best interest to stay at that school.

Best-Interest Determination

DCF will make the final decision regarding whether it is in a student's best interest to remain in the school of origin. District staff may be asked to provide information on the "educational best interest" of the student to support educational decision-making based on what is best for the student academically. For students receiving special education and related services under the Individual with Disabilities Education Act or for students on Section 504 accommodation plans, it is recommended that relevant team members should be consulted in the best interest determination process, as the district will still be required to ensure compliance with Least Restrictive Environment requirements.

The United States Department of Education has provided a list of factors that may be considered in determining the student's educational best interest, which include appropriateness of the current setting, proximity of placement to school attendance centers, the child's preference, the parents' preference, the child's attachment to the school of origin, where siblings will be placed, and the availability of needed services. The "best-interest determination" may not be made based on transportation costs or funding.

District Foster Care Liaison

The "district foster care liaison" is a district employee who facilitates the enrollment in or transfer to a public school of a student in the district who is a ward of the state. The district's foster care liaison is considered the designated point of contact for collaboration with DCF on transportation procedures.

The District has designated the following staff person as the District foster care liaison:

Name:

Position:

E-mail:
Address:
Telephone:

Child Welfare Agency

In Kansas, DCF is the regular child welfare agency for collaboration on transportation procedures. The Child Protective Services (“CPS”) division of DCF will typically be the division that works with the district on issues related to students in foster care, however, tribal child welfare agencies may also be involved with this process. Therefore, whenever DCF is used in these regulations, it may be deemed to apply to any child welfare agency based on the circumstances.

Child Welfare Contact

The district, if receiving Title I, Part A funds, must collaborate on transportation procedures with the DCF-designated contact if DCF notifies the district in writing that DCF has designated an employee to serve as a point of contact for the district.

General Transportation Procedures (OPTIONAL)

To ensure that transportation is provided promptly when it is determined to be in the best interest of a student in foster care to remain in the school of origin, the district has developed the following transportation procedures. These procedures will guide the development of an individual transportation plan for a student needing transportation to his or her school of origin.

Funding Strategies

The district and DCF have identified the following funding options that may be implemented if additional costs to transport a student in foster care to the school of origin are determined:

(Adjust the items below to include those agreed upon by the district and DCF. Consider any cost-sharing strategies that the district has used successfully with neighboring districts in transporting students who are homeless to and from their school of origin or any other programs where transportation costs are shared.)

1. Cost sharing between the district and DCF through use of a specific transportation strategy in which each party is responsible for a segment of the transportation;
2. Offset of costs by DCF, such as using Title IV-E funds paid to a foster parent or caregiver for transportation;
3. Cost sharing between the school district of attendance and the school district where the student is living;
4. Use of the district’s Title I funds;
5. Use of Medicaid reimbursements if the IEP for a student receiving special education services will include transportation as a related service;

6. Use of any available grant funds; and
7. [Other].

Transportation Strategies

The following transportation strategies may be considered in achieving transportation to a student's school of origin:

(Adjust the items below to include those agreed upon by the district and DCF. Consider any strategies that have been used successfully to transport students who are homeless to and from their school of origin and effective practices currently used to share transportation costs with neighboring districts, community partners, or others.)

1. Arranging transportation by the foster parent or caregiver to the school of origin or to a bus stop on a route to the school of origin, such as when the foster parent lives within a certain distance from the school of origin;
2. Arranging transportation by a relative or another adult approved by DCF with whom the student has a relationship and whose existing commute aligns with the student's transportation need to the school of origin or a bus stop on a route to the school of origin;
3. Maximizing the existing district transportation system by exploring ways the student can be transported to an existing bus stop that serves the school of origin (options to transport the student to an existing bus stop could occur through use of public transportation with a bus pass or transportation voucher, or transportation by the foster parent or caregiver, a relative, or another adult with whom the student has a relationship);
4. Using existing intradistrict transportation options that allow students to be transported within the district, such as routes for students who are homeless, students attending magnet programs, or students receiving special education services (this option may require the addition of a bus stop on an existing route or that an existing route be rerouted to accommodate the transportation needs);
5. Coordinating with the district in which the student is living to provide transportation to the district boundaries or an existing bus stop within the district;
6. Evaluating whether an IEP for a student receiving special education services will include transportation to the student's special education program at the school of origin as a related service;
7. Contracting with a private transportation company, such as a taxi service, for the student's transportation needs;
8. Using public transportation with a bus pass or transportation voucher;

9. Adding a district transportation route; or
10. [Other].

Individual Transportation Plan

When DCF determines that the best interest of a student in foster care is to remain in the school of origin, the district foster care liaison will take steps to promptly collaborate with relevant DCF staff on how transportation to the school of origin will be provided, arranged, and funded.

When possible, and to allow for adequate consideration of the student's needs, individual transportation planning will begin in advance of placement changes and will occur in coordination with the consultation on the student's educational best interest.

The district foster care liaison will convene a meeting to establish an individualized transportation plan for the student. The liaison will attempt to include the student's DCF education decision-maker and others who may be involved in education decision-making for the student, such as the student's caseworker, foster parent or caregiver, and the court-appointed special advocate (CASA) liaison. The District foster care liaison may also involve other district staff, as appropriate. The liaison will involve the district transportation director if the individual transportation plan will involve adjustments to existing bus routes.

If necessary, the district foster care liaison will identify a short-term transportation strategy that may be used until the final transportation plan is completed so that the student can remain at the school of origin without interruption.

In evaluating transportation options to the school of origin, participants will prioritize student safety, cost effectiveness, reliability, and time and distance of the commute.

Determining Additional Costs

To identify whether additional costs will be incurred in an individual transportation plan to transport the student to the school of origin, the foster care liaison will consult with the district transportation director to calculate the cost of transporting the student to the school that the student would otherwise attend, which will be used as a comparison. In accordance with the federal Non-Regulatory Guidance, if the district is able to provide transportation through an established bus route, there are no additional costs. If the district will reroute buses or provide transportation through a private vehicle or transportation company, the district may consider as additional costs the cost of rerouting buses or the difference between the special transportation costs and the usual transportation costs.

Administrative costs, such as additional staff time to coordinate transportation, will also be considered in determining whether there are additional costs to transport the student in foster care to the school of origin.

Plan Elements

The individual transportation plan may include:

1. A daily transportation strategy;
2. One or more backup transportation strategies;

3. Transportation strategies to allow participation in after-school and extracurricular activities;
4. A description of the funding strategy that will be used if additional costs to transport the student to the school of origin are identified;
5. Identification of who is responsible for each aspect of the transportation strategy;
6. Designation of an adult to accompany younger students, if necessary, such as when public transportation is used;
7. For transportation strategies with multiple segments, sign off procedures to ensure that the student safely and successfully completes each segment;
8. A communication protocol between the District and DCF when transportation for a student is no longer needed; and
9. A regular review process for adjusting transportation strategies when circumstances change.

The final individual transportation plan will require a signature by the foster care liaison and a district official who has authority to approve any additional expenditure. The DCF education decision-maker and the foster parent or caregiver, if different from the education decision-maker, will also be asked to sign the plan.

Truancy

JBE

(See AEB, IDCE, JBD and JQ)

Unless reporting would violate the terms of any memorandum of understanding between the district and the authority to which reports would be made, the building principal (or____) shall report students who are inexcusably absent from school to the appropriate authority.

Truancy is defined as any three consecutive unexcused absences, any five unexcused absences in a semester, or seven unexcused absences in a school year, whichever comes first. Truancy shall not apply to students who have attained a high school diploma, a general educational development credential, or a high

170

school equivalency credential. Exceptions also exist for students attending the Kansas academy of mathematics and science and for students who are part of a recognized church or religious denomination objecting to a regular public high school education under circumstances specified in state law.

For truancy purposes, being enrolled and continuously attending a public school; a private, denominational, or parochial school taught by a competent instructor for a period of time which is substantially equivalent to the period of time public school is maintained in the school district in which the private, denominational, or parochial school is located; or a combination of attendance in both a public school and a private, denominational, or parochial school may satisfy compulsory attendance requirements. School year means the period from July 1 to June 30. Students who are absent without a valid excuse for a significant part of any school day shall be given an unexcused absence for truancy accounting purposes considered truant.

Prior to reporting to either the Department for Children and Families (if the student is under 13) or the county or district attorney (if the student is 13 or more years of age but less than 18 years of age), a letter shall be sent to the student's parent(s) or guardian notifying them that the student's failure to attend school without a valid excuse shall result in the student being reported truant.

Waiver of Compulsory Attendance Requirements

Students 16 or 17 years of age may be exempt from compulsory attendance regulations if:

- The student is regularly enrolled in and attending a program recognized by the board as an approved alternative educational program;
- the parent(s) or person acting as parent provides written consent to allow the student to be exempt from the compulsory attendance requirement and the student and the student's parent or person acting as parent attend the counseling session required by law and signs the appropriate consent and waiver form;
- the student is not subject to truancy law in accordance with law or this policy;
- the child is regularly enrolled and continuously attending school as required by law and is concurrently enrolled in a postsecondary educational institution; or
- the student is exempt from compulsory attendance requirements pursuant to a court order.

Involvement of Law Enforcement

Law enforcement officers may return truant children to the school where the child is enrolled, to the child's parent or guardian, or to another location designated by the board to address truancy issues.

Reporting to Parents

If a truant child is returned to school by a law enforcement official, the principal shall notify the parent or guardian.

Dual Enrollment Students

Eligible students who are enrolled in a board-approved dual enrollment program shall not be considered truant for the hours during the school day they attend classes at a Regent's university, community college, technical college, vocational educational school, or Washburn University.

Interrogation and Investigations

JCAC

(See EBC, GAAD, JCABB, JCEC and JHCAA)

Building administrators, school security officers, and/or others designated by the superintendent may conduct investigations and question students about violation of school rules, the student conduct code, and/or law. Unless otherwise provided herein, such investigators shall not be required to contact the student's parent, guardian, or representative prior to questioning and may request law enforcement, school resource officer(s), and/or school security officer(s) for assistance in conducting the investigations.

If there is reason to believe a violation of a criminal law has been committed, the building administrator, the superintendent's designee, and/or school security officer with authorization of the superintendent or the superintendent's designee shall notify the appropriate law enforcement agency

of criminal conduct as provided in law and/or board policy and may request further investigation of the alleged violation.

When a school resource officer or campus police officer initiates an investigation of a potential violation of criminal law by a student on the officer's own initiative and not at the behest of a building administrator or the designee of the superintendent, such officer will notify the building administrator and will make a reasonable attempt to contact the student's parent, guardian, or representative prior to initiating questioning.

Coordination with Law Enforcement

School administrators and/or school security officers shall meet at least annually with local law enforcement officials to discuss the district's policies and rules regarding law enforcement contacts with the district and reporting of potential criminal acts at school or school activities.

Notification of Investigations Conducted by Law Enforcement Officers

When law enforcement officers initiate an investigation involving questioning of a student on a topic unrelated to a report of child abuse or neglect or to the identity of the student during school hours, the building administrator shall make a reasonable attempt to contact a parent, guardian, or representative of the student(s) prior to such questioning. Notification or attempted notification of a parent, guardian, or representative shall be documented by the administrator involved. If a student's parent, guardian, or representative is not present during such questioning of a student, the principal may be present unless otherwise specified in law or board policy.

Child Abuse and Identity Investigations Conducted by Law Enforcement Officers

The administration shall cooperate with law enforcement officers who are conducting investigations of suspected child abuse or neglect or concerning the student's identity. For any investigations concerning known or suspected child abuse or neglect, school staff shall follow the procedures outlined in board policy GAAD instead of the requirements of this policy.

Law Enforcement Initiated Investigations at School

In cases not involving the investigation of known or suspected child abuse or neglect or involving the student's identity, law enforcement officers shall not be permitted to initiate and conduct investigations involving the questioning of students during school hours unless the student's parent or guardian has given the school permission to allow the questioning, a valid warrant has been presented to the building administrator for such purpose, or in demonstrated emergency situations. If a demonstrated emergency is found, the building administrator shall require identification of law enforcement officials and reasons for the interrogation or investigation of a student. If the building administrator is not satisfied with either the identification or the reason, the request shall not be granted. The building administrator shall attempt to notify the superintendent and the officer's superiors of the reasons for the refusal.

Taking Students Into Custody

Students shall not be voluntarily released by school officials to law enforcement authorities unless the student has been placed under arrest or taken into custody by law enforcement, school resource officers, campus police

officers; or Department for Children and Families (“DCF”) authorities pursuant to a child abuse investigation. Except as otherwise specified in this policy, a reasonable effort shall be made to notify the student’s parent, guardian, or representative when students are removed from school for any reason. Parents shall not be notified by school officials when their child is taken into custody by DCF, school resource officers, campus police officers, and/or law enforcement as a result of allegations of abuse or neglect and there is reason to believe sharing the information may lead to harm of the child or others. Except as provided above and/or as specified in a court order or arrest warrant, if a student is taken into custody by a law enforcement officer, school resource officer, or campus police officer, building administrators shall make a good-faith effort to contact the student’s parent or guardian. Notification efforts shall be documented.

When a student has been taken into custody or arrested on school premises without prior notification to the building administrator, the school staff present shall ask the law enforcement officer to notify the building administrator of the circumstances as quickly as possible and shall themselves contact the building administrator with any information they have regarding the child being taken into custody. School resource officers and campus police officers are expected to contact the building administrator as soon as practicable after taking a student into custody.

Disturbance of School Environment

Law enforcement officers may be requested to assist in controlling disturbances at school and, if necessary, to take students or other persons into custody.

JDDC SHORT MODEL BULLYING PLAN

USD 340 Bullying Plan

(Also see Policies GAAB and JDDC)

Bullying means: Any intentional gesture or any intentional written, verbal, electronic, or physical act or threat either by any student, staff member, or parent towards a student or by any student, staff member or parent towards a staff member that is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment that a reasonable person, under the circumstances, knows or should know will have the effect of:

- Harming a student or staff member, whether physically or mentally;
- Damaging a student's or staff member's property;
- Placing a student or staff member in reasonable fear of harm; or
- Placing a student or staff member in reasonable fear of damage to the student's or staff member's property.

Bullying also includes cyberbullying. "Cyberbullying" means bullying by use of any electronic communication device through means including, but not limited to, email, instant messaging, text messages, blogs, mobile phones, pagers, online games, and websites.

Additionally, bullying means any form of intimidation or harassment prohibited by the board of education of the school district in policies concerning bullying adopted pursuant to K.S.A. 72-6147 or subsection (e) of K.S.A. 72-1138, and amendments thereto. USD 340 will not tolerate these actions by students, staff, or parents.

For the purposes of this plan and its authorizing policies, “parent” includes a biological, adoptive, or step-parent; guardian, custodian; or other person with authority to act on behalf of a student.

Similarly, a “staff member” means any person employed by the district.

Any act of bullying by either an individual student or group of students towards a student or staff member of the district is prohibited on or while utilizing school property, in a school vehicle or at school-sponsored activities, programs, and events. This policy applies to students who directly engage in an act of bullying, to students who, by their behavior, support another student’s act of bullying, and to all staff members and parents who engage in similar behaviors.

Training concerning identifying, reporting, investigating, and preventing bullying behaviors as outlined in district policies and this plan shall be provided to students and staff members using resources available for such purpose and shall be provided through school assemblies, staff development, or other appropriate forums at least {annually/biannually}.

USD 340 focuses on bullying prevention by:

1. Developing a bullying prevention program based on the KSDE Bullying Prevention Resource Toolkit including addressing bullying, building adult capacity to change climate and culture, curriculum and instructional resources, and measuring social-emotional learning;
2. Using the Kansas State Department of Education’s Social-Emotional and Character Development Standards to address school bullying and student mental health;
3. Implementing a social-emotional learning curriculum that includes an anti-bullying family engagement component;
4. Providing students and families with information and resources annually on bullying, cyberbullying, digital citizenship and how to make smart choices on-line;
5. Providing students and families with the district’s student behavior expectations relating to bullying and explanations for incidences that do not meet the legal definitions of bullying;
6. Tracking incidences of bullying including physical, cyber, verbal, and relational bullying and reporting this information to the Kansas State Board of Education;
7. Collecting data on bullying incidences from social emotional data sources and annually reviewing this information with the board of education;
8. Developing cultural awareness and understanding that certain demographic groups are disproportionately bullied at a higher rate than peers based upon sex, disability, socio-economic status, religious beliefs,

gender identity and expression, sexual-orientation, and race/ethnicity (including migrant populations);

9. Requiring all school employees to complete the following bullying prevention, identification, reporting and training module (describe district's annual training program).

The board or the district administration on behalf of the board may seek student, staff, parent, and/or community input on the adoption, revision, and/or implementation of the board's bullying policies or plan as directed or approved by the board.

No teacher, administrator, or school district employee shall engage in, permit, or tolerate bullying.

Retaliation against a victim, good faith reporter, or a witness to bullying is prohibited. A student or staff member who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying, shall be subject to discipline in accordance with school district policy and procedures. The school administration and/or board may consider the following factors when determining an appropriate disciplinary action for such prohibited conduct: the ages of the parties involved; the developmental and maturity levels, special education needs of the parties involved, and the nature, frequency, and severity of the behavior.

Discipline guidelines for student bullying may be found in student and employee handbooks. Offenses over time or single offenses which are severe in nature may result in discipline up to and including suspension and/or expulsion or termination from employment. Parents participating in prohibited bullying conduct aimed at district students and/or staff members may jeopardize their access to district facilities; district property; school sponsored activities, programs, and events; and/or district students and/or staff members through the district's communication systems. Health Screenings

JGCD

Vision, hearing, and dental screenings will be conducted in the district as part of the overall health services program. Such screenings will be administered in accordance with state law. When appropriate, other screenings deemed beneficial to students may be performed in the school health program.

When these screenings cannot be performed by district staff, the board authorizes the superintendent to identify healthcare service providers to provide them. Such healthcare service providers shall be required to enter into a contract with the district prior to providing any screenings or other services to students in the school setting.

Vision Screenings

Basic vision screenings shall be provided to students without charge according to the following schedule:

- Annually for every child participating in IDEA part B programs;
- At least once each school year for students in kindergarten and grades one, two, three, five, seven, and ten;
- Within the first year of enrollment in the district;
- Upon request by the parent or guardian of a student enrolled in an accredited nonpublic school who resides in the school district.

These basic vision screenings shall be performed by a vision screener designated by the board, who shall follow current state vision screening guidelines for performing the screenings. The results of the screening and, if necessary, referral for an examination by an ophthalmologist or optometrist shall be reported to the parents or guardians of the student. Any referral shall not show a preference in favor of any particular ophthalmologist or optometrist to provide an additional examination.

While not part of the board provided vision screening program, each student needing assistance in achieving mastery of basic reading, writing, and mathematics skills shall be encouraged to obtain an eye examination by an optometrist or ophthalmologist to determine if the student suffers from conditions impairing the ability to read. Expense for such an examination, if not reimbursed through Medicaid, private insurance, or any other governmental or private program, shall be the responsibility of the student's parent or guardian.

Hearing Screening

Each year hearing screening procedures will be conducted for students in their first year of school attendance in the district. Such procedures will be provided for other students at a frequency of not less than once every three years unless otherwise specified by state law. Students known to have hearing difficulties and students referred by teachers, parents, and/or physicians will be screened regardless of grade level.

Under certain conditions, hearing screening services are provided for students residing within district boundaries who are enrolled in accredited non-public schools. These services are coordinated between the administration of the accredited nonpublic school and district administration and require a request

from the student's parent or guardian. Implementation of the program for nonpublic school students follows the same guidelines as for district students.

The results of the test and, if necessary, the desirability of examinations by a qualified physician shall be reported to the parents or guardians of students screened.

Dental Screenings

Free dental inspections will be provided to students annually, planned for by designated school staff, and conducted by appropriate dental care providers. Students presenting a certificate from a legally qualified dentist providing that a dental examination was completed in the three months prior to the school dental inspection need not be provided with an inspection.

A certificate of the result of a school dental inspection, together with suggestions of requirements for the curing of any defects found, shall be made by the dental care provider making such inspection. One copy of this certificate is to be furnished to the child examined, and another will be filed with the clerk of the board. No dental work other than the inspection and provision of the certificate shall be performed by the examining dental care provider without the consent of the parents or guardian of the child.

Selected Screenings

Other screening procedures may be deemed appropriate and beneficial to students. Designated staff will assist in the planning and implementation of other screening programs following standard procedures.

Screening results and referrals, when necessary, will be communicated to parents.

In accordance with state law, the parent or guardian of any child entering school for the first time shall be informed of the availability of sickle cell screening and of the location of the nearest facility providing blood tests for sickle cell trait and sickle cell anemia.

regarding discrimination on the basis of sex, and the Kansas Act Against Discrimination. The Title IX Coordinator's responsibilities include, but are not limited to: developing materials and ensuring professional development occurs for staff involved in Title IX compliance, creating systems to centralize records, gathering relevant data, contacting the complainant (and/or parents or guardians, if applicable) once the district has actual knowledge of alleged sexual harassment, coordinating the implementation of supportive measures, signing a formal complaint to initiate a grievance process, and ensuring any remedies are implemented.

The Title IX Coordinator, any investigator, decision-maker, or any person who facilitates an informal resolution process shall not have a conflict of interest or bias for or against the complainant or respondent. These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including by avoiding prejudgment of the facts, conflicts of interest, and bias. Decision-makers shall receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. Investigators shall receive training on issues of relevance of questions and evidence in order for them to create investigative reports that fairly summarize relevant evidence.

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to their immediate supervisor, building administrator, or Title IX Coordinator. Employees who fail to report complaints or incidents of sexual harassment to appropriate district officials may face disciplinary action. District officials who fail to investigate and take appropriate corrective action in response to complaints of sexual harassment may also face disciplinary action.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes sexual harassment under the definition outlined above. Unacceptable student conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its severity, pervasiveness, and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct.

If discrimination or harassment has occurred, the district will take prompt, remedial action to stop it and prevent its reoccurrence.

The Title IX Coordinator shall promptly respond in a meaningful way to any reports of sexual discrimination including sexual harassment of which the district has actual knowledge as follows:

- Contact the complainant within 10 business days and discuss the availability of supportive measures, with or without the filing of a formal complaint, and consider the complainant's wishes as to supportive measures; and
- Inform the complainant of the right to a formal complaint investigation consistent with Title IX and the informal resolution process.

Supportive Measures

The district will treat the complainant and respondent equitably by offering supportive measures. These non-disciplinary and non-punitive measures will be offered as appropriate, as reasonably available, and without cost to the complainant or the respondent. Supportive measures are designed to restore or preserve equal access to the education program or activity without unreasonably burdening the other party. "Supportive Measures" shall include, but not be limited to, measures designed to protect the safety of all parties, to protect the district's educational environment, or to deter sexual harassment. These measures may include counseling, extensions of deadlines or course-related adjustments, modifications of work or class schedules, escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring, and other similar measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

The Formal Complaint

No investigation of alleged sexual harassment may occur until after a formal complaint has been filed.

A formal complaint is a document filed by the complainant or signed by the Title IX Coordinator alleging sexual harassment and requesting an investigation. The procedures for filing a formal complaint are as follows:

- At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in the education program or activity of the district concerning which the formal complaint is filed.
- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. Filing of the complaint with the Title IX Coordinator may be done in person, by mail, or by email. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved, the Title IX Coordinator may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 calendar days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- An investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board shall appoint an investigating officer. In other instances, the investigation shall be conducted by a qualified individual designated by the Title IX Coordinator or another individual appointed by the board. The investigation shall be thorough. All interested persons, including the complainant and the respondent, will be afforded an opportunity to submit written or oral evidence relevant to the complaint.

Formal Complaint Notice Requirements

Upon filing of a formal complaint, the district shall provide written notice to the known parties including:

- Notice of the allegations of sexual harassment including sufficient details to prepare a response before any initial interview including:
 - the identities of the parties involved, if known;
 - the conduct allegedly constituting sexual harassment; and
 - the date and location of the alleged incident, if known.
- An explanation of the district's investigation procedures, including any informal resolution process;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;
- Notice to the parties they may have an advisor of their choice and may inspect and review any evidence; and
- Notice to the parties of any provision in the district's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice initially provided, notice of the additional allegations shall be provided to known parties.

Formal Complaint Investigation Procedures

To ensure a complete and thorough investigation and to protect the parties, the investigator shall:

- Ensure that the preponderance of the evidence burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the district and not the parties;
- Provide an equal opportunity for the parties to present witnesses and evidence;
- Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
- Allow the parties to be accompanied with an advisor of the party's choice;
- Provide written notice of the date, time, location, participants, and purpose of any interview or meeting at which a party is expected to participate;
- Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint, including the investigative report, and the opportunity to respond to that evidence before a determination is made;
- Be impartial and objectively evaluate all relevant evidence without relying on sex stereotypes;
- Not have conflicts of interest or bias for or against complainants or respondents;
- Not make credibility determinations based on the individual's status as complainant, respondent, or witness.

Formal Complaint Investigation Report

The investigator shall prepare an investigative report that fairly summarizes relevant evidence and share the report with the parties and their advisors for review and response.

Before completing the investigative report, the investigator must send each party and their advisors the investigative report for review and allow the parties 10 days to submit a written response for the investigator's consideration.

Decision-Maker's Determination

Upon receiving the investigator's report, the decision-maker must make a determination regarding responsibility and afford each party the opportunity to submit written, relevant questions that the parties want asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence. The decision-maker's written determination shall:

- Identify the allegations potentially constituting sexual harassment;
- Describe the procedural steps taken, including any notifications to the parties, site visits, methods used to gather evidence, and interviews;
- Include the findings of fact supporting the determination;
- Address any district policies and/or conduct rules which apply to the facts;
- Address each allegation and a resolution of the complaint including a determination regarding responsibility, the rationale therefor, any disciplinary sanctions imposed on the respondent, and whether remedies designed to restore or preserve access to the educational program or activity will be provided by the district to the complainant; and
- The procedures and permissible bases for the complainant and/or respondent to appeal the determination.

A copy of the written determination shall be provided to both parties simultaneously.

The range of disciplinary sanctions and remedies may include, but may not be limited to, supportive measures, short term suspension, long term suspension, expulsion for students, and/or termination for employees. Complainants and respondents shall be treated equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment has been made. The Title IX Coordinator is responsible for the effective implementation of any remedies. If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.

If the investigation results in a recommendation that an employee be suspended with or without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and/or state law will be followed.

Records relating to complaints filed and their resolution shall be maintained by the Title IX Coordinator for seven years.

The decision becomes final on the date the parties receive the results of an appeal, if any appeal is filed; or on the date the opportunity for an appeal expires.

Appeals

The complainant or respondent may appeal the decision-maker's determination regarding responsibility or a dismissal of a formal complaint, on the following bases:

- Procedural irregularity that affected the outcomes;
- New evidence that was not reasonably available at the time that could affect the outcome; and/or
- The Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias against either party that affected the outcome.

The request to appeal shall be made in writing to the Title IX Coordinator within 10 days after the date of the written determination. Appeals shall be a review of the record by an attorney, an independent hearing officer appointed by the board, or the board. The appeal decision-maker may not be the Title IX Coordinator, the Investigator, or the decision-maker from the original determination.

The appeal decision-maker will issue a written decision within 30 days after the appeal is filed. The appeal decision-maker will describe the result of the appeal and the rationale for the result.

The appeal decision-maker shall:

- Review the evidence gathered by the investigator, the investigator's report, and the original decision-maker's determination;
- Notify both parties in writing of the filing of an appeal and give them an opportunity to submit further evidence in writing;
- Not have a conflict of interest or bias for or against complainant or respondent and receive the required training;
- Issue a written decision and the rationale for the decision within 30 days after the appeal is filed;
- Describe the result of the appeal and the rationale for the result in the decision; and
- Provide the written decision simultaneously to both parties and to the Title IX Coordinator.

Informal Resolution Process

At any time during the formal complaint process and prior to reaching a determination regarding responsibility, the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process may be facilitated by a trained educational professional, consultant, or other individual selected by the Title IX Coordinator under the following conditions:

- The parties are provided a written notice disclosing the allegations, the requirements of the informal resolution process, and information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;

- At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process, resume the investigation of the formal complaint, and be informed of any consequences resulting from participating in the informal resolution process;
- The parties voluntarily and in writing consent to the informal resolution process; and
- The informal resolution process cannot be used to resolve allegations that an employee sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the proposed resolution, have both parties sign the documentation and receive a copy, and forward it to the Title IX Coordinator. Within 20 days after the complaint is resolved in this manner, the Title IX Coordinator shall contact the complainant to determine if the resolution of the matter remains acceptable. If the matter is not resolved, or if the individual does not believe the resolution remains acceptable within 20 days after the informal resolution document is executed, the individual or the Title IX Coordinator may proceed with the formal complaint process.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or appeal.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies, including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

The filing of a complaint or otherwise reporting sex discrimination including sexual harassment shall not reflect upon the individual's status or grades. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving sex discrimination, including sexual harassment, is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and the complaint procedures including how to report or file a formal complaint of sex discrimination or sexual harassment shall be posted in each district facility shall be published in student handbooks, and on the district's website as directed by the Title IX Coordinator. Notification of the policy may include posting informational notices, publishing in local newspapers, publishing in newspapers and magazines operated by the school, or distributing memoranda or other written communications to students and employees. In addition, the district is required to include a statement of nondiscriminatory policy in any bulletins, announcements, publications, catalogs, application forms,

or other recruitment materials that are made available to participants, students, applicants, or employees.

Racial and Disability Harassment:

JGECA

(See GAACA, GAAB, GAF, JDDC and KN)

The board of education is committed to providing a positive and productive learning and working environment, free from discrimination, including harassment, on the basis of race, color, national origin, or disability. Discrimination or harassment on the basis of race, color, or national origin (“racial harassment”) or on the basis of disability (“disability harassment”) shall not be tolerated in the school district. Racial or disability harassment of employees or students of the district in any district education program or activity is strictly prohibited.

Racial harassment is unlawful discrimination on the basis of race, color or national origin under Titles VI and VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. Disability harassment is unlawful discrimination on the basis of disability under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. All forms of racial or disability harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events.

It shall be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Prohibited conduct under this policy includes racially or disability-motivated conduct which:

- Affords a student different treatment, solely on the basis of race, color, national origin, or disability, in a manner which interferes with or limits the ability of the student to participate in or benefit from the services, activities or programs of the school;
- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of creating a hostile academic environment; or
- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of interfering with a student’s academic performance or ability to participate in or benefit from the services, activities or programs of the school.

Racial or disability harassment may result from verbal or physical conduct or written graphic material.

The district encourages all victims of racial or disability harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate all complaints of racial or disability harassment and take prompt corrective action to end the harassment.

Any student who believes he or she has been subject to racial or disability harassment or has witnessed an act of alleged racial or disability harassment, should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of racial or disability harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator. The building principal shall discuss the complaint with the student to determine if it can be resolved. If the matter is not resolved to the satisfaction of the student in this meeting, the student may initiate a formal complaint under the district's discrimination complaint procedure in policy KN.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial or disability harassment under the definition outlined above. Unacceptable student conduct may or may not constitute racial or disability harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct. The discipline of a student for violation of any provision of the code of student conduct may be enhanced if the conduct is racially or disability motivated.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

An employee who witnesses an act of racial or disability harassment shall report the incident to the building principal. Employees who fail to report complaints or incidents of racial or disability harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of racial or disability harassment may also face disciplinary action.

When a complaint contains evidence of criminal activity or child abuse, the compliance coordinator shall report such conduct to the appropriate law enforcement or DCF authorities.

To the extent possible confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

The filing of a complaint or otherwise reporting racial or disability harassment shall not reflect upon the student's status or grades. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving a racial or disability harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of racial or disability harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy shall be posted in each district facility and shall be published in student handbooks and on the district's website as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually, if applicable.

Student Accidents and Health Emergencies

JGFG

When a staff member becomes aware that a student has been involved in an accident or is in need of emergency care at school, on school property, or at a school-sponsored activity, the staff member shall follow the rules for the care of an injured student and shall report the accident to the building principal. If a student has an accident which appears to require medical treatment, an employee shall send for medical help and try to make the student as comfortable as possible while waiting for medical assistance to arrive.

When appropriate, the student's parent(s) shall be notified of the student's condition as soon as possible to determine appropriate action. If the student needs medical attention, and the parents cannot be reached, the principal shall seek emergency medical treatment.

Emergency Care

At the scene of an emergency or accident when medical help is not readily available to assist in the care of an injured student, an employee may render emergency care or assistance, including, but not limited to, first aid, as deemed reasonably necessary until medical help arrives. Kansas law provides protection from civil liability for any person who, in good faith and without compensation, renders emergency care or assistance to any person, including a minor without first obtaining the consent of the parent or guardian of such minor, at the scene of an emergency or accident. However, this protection does not extend to individuals whose acts or omissions in rendering emergency care in these circumstances were grossly or wantonly negligent.

Appropriate records documenting student accidents shall be maintained.

Administration of Emergency Opioid Antagonists

JGFGA

Kansas law creates standards governing the use and administration of emergency opioid antagonists approved by the U.S. Food and Drug Administration ("FDA") to inhibit the effects of opioids and for the treatment of an opioid overdose. Any first responder or school nurse is authorized to possess, store, and administer emergency opioid antagonists as clinically indicated, provided that all personnel with access to emergency opioid antagonists are trained in proper protocol.

Similarly, Kansas law allows a patient or bystander (meaning a family member, friend, caregiver, or other person in a position to assist a person who the bystander believes to be experiencing an opioid overdose) to acquire and utilize emergency opioid antagonists.

Therefore, to prioritize student health and safety in its schools, programs, and activities, the board authorizes the district to obtain, store, and administer naloxone, Narcan, and/or other opioid antagonists for emergency use in its schools. The school nurse or other properly trained staff member may

215

administer such medication in emergency situations. Opioid antagonists may be available during the regularly scheduled school day. They may be available at other times at the discretion of the superintendent.

The board establishes the following rules governing the utilization and administration of emergency opioid antagonists, such as, but not necessarily limited to, naloxone and Narcan, by members of district staff.

Training

If obtaining the emergency opioid antagonist through a pharmacy, the providing pharmacy of the emergency opioid antagonist (hereafter “the product”) shall provide written education and training materials to the individual to whom the product is dispensed. First Aid for Opioid Overdose must be obtained by each school nurse and other staff members designated by the superintendent to respond to potential opioid overdose situations.

District staff members personally acquiring such products for use as a patient or bystander are encouraged to inform the school nurse or the superintendent’s designee, so that they may be trained in proper protocol and included in the school or district’s crisis response plan regarding potential opioid overdose.

Procurement of the Product

The school nurse or other staff member(s) designated by the superintendent will be responsible for the procurement of the product.

Storage

The following storage protocols shall be followed:

- The product will be clearly marked and stored in an accessible place at the discretion of the school nurse or the superintendent’s designee.
- The product will be stored in accordance with the manufacturer’s instructions to avoid extreme cold, heat, and direct sunlight.
- Inspection of the product shall be conducted at least quarterly.
- The individual responsible for the product’s safekeeping shall check, document, and track the expiration date found on the box and replace the product once it has expired.

Use of the Product

In case of a suspected opioid overdose, the school nurse, designee, or other individual shall follow the protocols outlined in the training or product instructions.

Follow-up

- After administration of the product, the school nurse, or other designated staff, will report appropriate information to emergency services, parents (guardians), central office personnel, and if determined necessary, the patient will be transported to a hospital.

- The school nurse or other designated staff will complete the designated incident report and file the report with the school nurse or district office, whichever is applicable.

Protection from Liability

Any patient, bystander, school nurse, a first responder, or technician operating under a first responder agency, who, in good faith and with reasonable care, receives and administers an emergency opioid antagonist pursuant to this policy to a person experiencing a suspected opioid overdose shall not, by an act or omission, be subject to civil liability or criminal prosecution, unless personal injury results from the gross negligence or willful or wanton misconduct in the administration of the emergency opioid antagonist.

Supervision of Medications

JGFGGB

The supervision of medications shall be in strict compliance with the rules and regulations of the board as carried out by district personnel. Diagnosis and treatment of illness and the prescribing of drugs and medicines are not the responsibility of the public schools and are not to be practiced by any school personnel, including school nurses, unless authorized.

In certain circumstances when medication is necessary in order that the student remain in school, the school may cooperate with parents in the supervision of medication that the student will use. However, the medical person authorized to prescribe medication or the parent if it is a nonprescription medication must send a written order to the building administrator who may supervise the administration of the medication or treatment. The parents must submit a written request to the building administrator requesting the school's cooperation in such supervision and releasing the school district and personnel from liability.

School personnel shall not be required to be custodians of any medication except as required by a written order of a licensed medical person or in the case of nonprescription medication when requested in writing by the parents.

The medication shall be examined by the school employee administering it to determine that it appears to be in the original container, to be properly labeled, and to be properly authorized by the written order of licensed medical person. Two containers, one for home and one for school, should be requested from the pharmacist.

Any changes in type of drugs, dosage, and/or time of administration should be accompanied by updated physician and parent permission signatures and a newly labeled pharmacy container.

All medication maintained in the school setting should be kept in a locked container. This includes medication requiring refrigeration.

Medications should be inventoried every semester. Out-of-date stock should be returned to parent or destroyed.

Over-the-counter medications should not be maintained on any school premises, including athletic areas, unless written parent permission to administer is obtained.

The building administrator may choose to discontinue the administration of medication provided that the parents or medical person are notified in advance of the date and the reasons for the discontinuance.

After medication is administered, students should be observed for possible reactions to the medication. This observation may occur at the site of administration or in the classroom as a part of the normal routine.

This policy shall be shared with all local physicians and dentists where practicable. Forms should also be made available to the health care providers in the community.

An individual record should be kept of each medication administered. The record should include student identification, date prescribed, name of medication, time and date(s) administered, signature of person administering and section for comments.

In the administration of medication, the school employee shall not be deemed to have assumed any legal responsibility other than acting as a duly authorized employee of the school district.

JGFGBA Student Self-Administration of Medications
(See JGFGB)

JGFGBA

The self-administration of medication is allowed for eligible students in grades K–12. As used in this policy, medication includes, but is not limited to, a medicine for the treatment of anaphylaxis or asthma listed in current federal regulation as an inhaled bronchodilator or auto-injectable epinephrine. Self-administration is the student's discretionary use of an approved medication for which the student has a prescription or written direction from a health care provider or written parental authorization on file in the school office for over-the-counter medications. Self-administration of medication at a dosage or rate exceeding product label instructions may result in denial of privilege to self-administer medications and/or disciplinary action as appropriate.

As used in this policy health care provider means a physician licensed to practice medicine and surgery; an advanced registered nurse practitioner, or a licensed physician assistant who has authority to prescribe drugs under the supervision of a responsible physician.

Student Eligibility

An eligible student shall meet all the following requirements:

- Have a written statement from the student's health care provider stating the name and purpose of any prescription medication/s or written authorization from the student's parent for use of over-the-counter medication/s;
- Know the prescribed or recommended dosage;
- Know the time the medication is to be regularly administered;
- Be able to articulate any additional special circumstances under which the medication is to be administered;
- Know the length of time for which the medication is prescribed;
- The student shall also demonstrate to the health care provider or the provider's designee, as applicable, and the school nurse or the nurse's designee the skill level necessary to use the medication and any device that is necessary to administer the medication. In the absence of a

school nurse, the school shall designate a person who is trained to witness the demonstration.

Authorization Required

With regard to prescription medications which are not administered on a regular schedule, the student's health care provider shall prepare a written treatment plan for managing the student's condition, such as asthma attacks or anaphylaxis episodes, and for medication use by the student during school hours. The student's parent or guardian shall annually complete and submit to the school any written documentation required by the school, including the treatment plan prepared by the student's health care provider. Permission forms shall be updated {during enrollment/or_____}

Employee Immunity

All teachers responsible for the student's supervision shall be notified that permission to carry medications and self-administer has been granted. The school district shall provide written notification to the parent or guardian of a student that the school district and its officers, employees, and agents are not liable for damage, injury, or death resulting directly or indirectly from the self-administration of medication.

Waiver of Liability

The student's parent or guardian shall sign a statement acknowledging that the school district and its officers, employees, or agents incur no liability for damage, injury, or death resulting directly or indirectly from the self-administration of medication and agreeing to release, indemnify, and hold the district and its officers, employees, and agents, harmless from and against any claims relating to the self-administration of medication allowed by this policy.

Additional Requirements for Students Prone to Specified Emergencies

- The school district shall require that any back-up medication provided by the student's parent or guardian be kept at the student's school in a location to which the student has immediate access if there is an asthma or anaphylaxis emergency;
- The school district shall require that all necessary and pertinent information be kept on file at the student's school in a location easily accessible if there is an asthma or anaphylaxis emergency;
- Eligible students shall be allowed to possess and use approved medications at any place where the student is subject to the jurisdiction or supervision of the school district, its officers, employees, or agents;
- The board may adopt policy or handbook language which imposes additional requirements relating to the self-administration of medication allowed for in this policy and may establish a procedure for, and the conditions under which, the authorization for student self-administration of medication may be revoked.

Accommodating Students with Diabetes

JGFGBB

As used in this policy, diabetes management and treatment plan means a plan prepared and implemented for a student with diabetes which is prescribed by a physician licensed to practice medicine and surgery; a certified, advanced registered nurse practitioner who has authority to prescribe drugs; or a licensed physician assistant who has authority to prescribe drugs pursuant to a written protocol with a responsible physician.

Student Eligibility

Self-care of diabetes may be allowed for students in grades K-12. To be eligible, a student shall meet all requirements of this policy.

Parents or guardians shall submit a written diabetes management and treatment plan from the student's health care provider.

The student shall provide written authorization from the student's health care provider and parent or guardian stating the student has been instructed on managing and caring for their diabetes and is authorized to do so in school. An annual written renewal of parental authorization for the self-care of diabetes shall be required.

While at school, each student capable of managing and caring for the student's diabetes will be allowed to:

- Perform blood glucose level check;
- Administer insulin through the delivery system the student uses;

When information is requested in compliance with a judicial order or pursuant to any lawfully issued subpoena, parent(s)/guardian and the student shall be notified of the orders or subpoenas in advance of compliance with the order or subpoena unless:

Complaints

KN

(See BCBI, GAAC, GAACA, GAAB, GAAF, IF, IKD, JCE, JGEC, JGECA, and KNA)

General Complaints

The board encourages all complaints regarding the district to be resolved at the lowest possible administrative level. If the investigation and determination procedures of a complaint are not regulated in another board policy or the negotiated agreement, as applicable, it will be designated a general complaint subject to processing under this policy. Whenever a general complaint is made directly to the board as a whole or to a board member as an individual, it will be referred to the administration for study and possible resolution.

Informal Procedures

The building principal shall attempt to resolve general complaints in an informal manner at the building level. Any school employee who receives a general complaint shall inform the individual of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. The building principal shall discuss the complaint with the individual to determine if it can be resolved. If the matter is resolved to the satisfaction of the individual, the building principal shall document the nature of the complaint and the proposed resolution remains of the complaint and forward this record to the district compliance coordinator. Within 20 days after the complaint is resolved in this manner, the principal shall contact the complainant to determine if the resolution of the matter remains acceptable.

If the matter is not resolved to the satisfaction of the individual in the meeting with the principal, or if the individual does not believe the resolution remains acceptable, the individual may initiate a formal complaint.

Formal Complaint Procedures

- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved, the building principal may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs but not later than 180 days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board shall appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator, or another individual appointed by the board or superintendent. The investigation shall be informal but thorough. The complainant and the respondent will be afforded an opportunity to submit written or oral

250

evidence relevant to the complaint and to provide names of potential witnesses who may have useful information.

- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator, and a copy forwarded to the complainant and respondent within 30 days after the filing of the complaint. If the investigator anticipates a determination will not be issued within 30 days after the filing of the complaint, the investigator shall provide written notification to the parties including an anticipated deadline for completion. In no event shall the issuance of the written determination be delayed longer than 10 days from the conclusion of the investigation.
 - If the investigation results in a recommendation that a student or staff member be subject to discipline, the specifics will not be included in the written determination provided to the parties to protect the privacy rights of the student or staff member,
 - If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.
 - If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures, outlined in board policy, the negotiated agreement (as applicable), and state law will be followed.
- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.

Appeal Procedures

The complainant or respondent may appeal the determination of the complaint. Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board or superintendent, or by the board itself. The request to appeal the determination shall be made within 20 days after the date of the written determination of the complaint at the lower level. The appeal officer shall review the evidence gathered by the investigator at the lower level and the investigator's report shall afford the complainant and the respondent an opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed. Whenever an appeal officer is appointed to review an appeal, the appeal officer will prepare a written report to the board within 30 days after the appeal is submitted for decision. The board shall render its decision not later than the next regularly-scheduled meeting of the board following the receipt of the report and provide the parties with a notice of the result of the appeal. Any matter determined by the board in accordance with

this process shall be valid to the same extent as if the matter were fully heard by the board without an appeal officer.

- Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

If it is determined at any level that a violation of board policy or school rules occurred, the district will take prompt, remedial action to prevent its reoccurrence.
