

Winter Weather is Here!

Hello Families!

We are gearing up for another New Hampshire winter!

We love taking our students outside whenever possible to get fresh air, sunlight, and exercise! We take our students outside every school day when the weather is 20° or above and conditions are safe (i.e. not too icy or slippery).

Please help your child be ready for our outside winter time at Hampton Academy:

- All students need a winter coat, hat, and gloves or mittens. If you need assistance with getting any of these necessary items, please contact our school district's social worker, Emily Fixler, at efixler@sau90.org or by calling her at Hampton Academy at (603)926-2000 extension 726. You can also contact the Hampton Fire Department at (603)926-3316 about Operation Warm.
- Please LABEL, LABEL, LABEL everything!
- Students are not allowed on the snow without **waterproof winter boots**. For safety reasons, we do not allow students on icy surfaces.
- Because our snack and recess break is only fifteen minutes long, students do not have time to change into and out of snowpants - please leave these at home.

'Tis the season for chapped lips and chapped hands! Students are encouraged to have chapstick and hand lotion at school - names/initials on tubes is a great idea!

Thank you!
Hampton Academy
