

March 14, 2024

Good Morning BUHS Students and Families,

Last night many of you made us aware of a potential threat that was circulating on social media. Following our protocol, Bishop PD immediately contacted and they let us know they had already had multiple reports. This morning, PD confirmed that the post originated out of Washington state and that their local police are handling the investigation.

During a online search, this news story ran by a Utah station detailed the same story with the same note that people were concerned could be directed to "Bingham High School" (<https://ksltv.com/630149/online-school-shooting-threat-circulates-in-south-jordan-police-yet-to-confirm-validity/>). The story shows the same social media post with the same handwritten note that was circulating in our community last night.

Regardless of the likelihood this vague threat was never intended for Bishop Union High School, do not be alarmed if there is an increased law enforcement presence on campus. As always, stay vigilant and report any concerns to law enforcement and school administration immediately.

Please let us know if you have any questions. Thank you.

14 marzo 2024

Buenos días estudiantes y familias de BUHS,

Anoche muchos de ustedes nos hicieron conscientes de una amenaza potencial que circulaba en las redes sociales. Siguiendo nuestro protocolo, Bishop PD se comunicó de inmediato y nos informaron que ya habían recibido múltiples informes. Esta mañana, la policía confirmó que la publicación se originó en el estado de Washington y que su policía local está manejando la investigación.

Durante una búsqueda en línea, esta noticia publicada por una estación de Utah detalla la misma historia con la misma nota de que a las personas les preocupaba que pudieran ser dirigidas a "Bingham High School" (<https://ksltv.com/630149/online-school-shooting-amenaza-circula-en-la-policia-del-sur-de-jordania-aun-por-confirmar-validez/>). La historia

muestra la misma publicación en las redes sociales con la misma nota escrita a mano que circulaba en nuestra comunidad anoche.

Independientemente de la probabilidad de que esta vaga amenaza nunca haya sido dirigida a la Escuela Secundaria Bishop Union, no se alarme si hay una mayor presencia policial en el campus. Como siempre, manténgase alerta e informe cualquier inquietud a las autoridades policiales y a la administración escolar de inmediato.

Por favor hazme saber si tienes preguntas. Gracias.
