#### 🐾 Character Strong Moment of the week

- "Vulnerability can be one of the most important pathways to well-being among young people. When we lean into our own vulnerability with young people, it gives them permission to do the same. Just like

the blues, vulnerability is emotional risk taking, putting it all on the table and trusting that you won't be hurt when you do. **Vulnerability is also the only way to form true transformative relationships because it raises the emotional stakes and creates a sacred agreement that what you just shared will be held and protected with tender care, without judgement."**
