

FIELD RESTORATIONS

BEFORE

AFTER

Little League and Softball Field Restorations

After the storm last spring, the R-7 Little League fields and batting cages needed a complete remodel. The Jefferson R-VII School District and R-7 Little League teamed up with collaborators to help replace the backstop, make a concrete pathway, expand the parking lot, rebuild the batting cages, and replace the lights at the field. All of this could not be done without the help from Wil-Mix Concrete Products, Buzzi Unicem, and Pazdera Hauling. We appreciate everyone who helped make the softball and little league fields better for our students and community.

A huge thank you to these companies:

Wil-Mix
Concrete Products, INC.

Pazdera
Hauling LLC
