WHO WE ARE AND WHAT WE DO!

The Project Graduation of Martin County, Inc. is a 501(c) 3 that is a locally operated, nationally designed for graduating seniors which encourages them to stay off the streets on the evening of their high school graduation.

During prom and graduation weekends, teen deaths from crashes and poor choices are higher than any other time of year. When a graduating senior attends Project Graduation, we can ensure a safe environment with no alcoholic beverages or illegal substances that could cause a child to harm themselves or others. With county, school, and parental support, this program is highly anticipated and successful with over 12,000 graduating seniors attending over the last 23 years. That accounts for nearly 75% of the graduating class at each school.

We rely completely on donations and items collected through fundraising efforts in our community to operate. We have no paid positions-- every dollar donated goes to the event. The Board collects and manages all Project Graduation funds for the three traditional public high schools in the county: Martin County, South Fork, and Jensen Beach, plus the others that include Spectrum Academy, Willoughby Learning Center, and Clark Advanced Learning Center

Parents and teachers chaperone the event for safety purposes. Martin County has not had one alcohol or drug related death, car accident, injury or significant police stop for our graduates since the program's inception 23 years ago.

Events, prizes, and entertainment keep seniors busy throughout the night which allows them to celebrate graduation in a safe environment.

Please feel free to contact us at **projgradmcinc@gmail.com** for more information or details on how to donate.
