Buy the right size turkey to feed your family. Prep it with special oils to make it taste better. Put it in the oven at 25 degrees Fahrenheit for an hour. Let it cool. Get the sides ready and yell "It's time to eat!" like my mom does.

Gavin Nielson
4th Grade

First, stuff it and spray a pan with oil so it doesn't stick. Put it in the oven for 30 minutes. Halfway through, stick a thermometer in it. You can take the turkey out when the thermometer says 350 degrees and cut it up.
