EXPENSE WORK CHART TO ESTIMATE FINANCIAL NEEDS FOR COLLEGE

Use the work chart below to list your estimated expenses, item by item. Add up all the expenses to estimate your total annual costs.

List any scholarship money, savings or dividends that can be applied toward these expenses. List whatever sum you estimate can be allocated out of family earnings. Then list any earnings from your part-time or summer time employment.

Add up all "Income and Savings" to see if this total is sufficient to meet "Total Annual Costs." If not, the difference will be the amount of outside financial help you will need.
