**Dear Preschool Families,**

**School can be cancelled for many reasons. This packet contains activities that are to be used when you child's school day has been cancelled. These activities will help keep your child learning, while not in school. Nothing needs to be returned. We will continue to review and check for understanding in the classroom, when school resumes.**

**Our school website [beale.maso.k12.wv.us](http://beale.maso.k12.wv.us), [pbskids.org](http://pbskids.org), [abcya.com](http://abcya.com), and [starfall.com](http://starfall.com) are all great websites with lots of learning activities. Enjoy and have fun!**

## Language Arts

- **Day 1**  
Practice spelling your child's name with him/her.
- **Day 2**  
Recite or sing Nursery Rhymes together. For extra fun, use different voices, add hand motions, or act them out!
- **Day 3**  
Read a children's book with your child. Ask your child to tell you the parts of the book (front cover, back cover, and spine). Discuss what happened first and last in the story.
- **Day 4**  
Practice holding a writing utensil using a pincer grip (thumb and first finger), to trace and write your child's first name.

## Mathematics

- **Day 1**

Be a “shape seeker” and seek out shapes around your house. Look for circles, squares, triangles, and rectangles. Then count how many you find.

- **Day 2**

Practice counting 1 to 10. Can you count to 20?

- **Day 3**

Practice sorting items in your home by color. Can you find items that are red, blue, yellow and green and sort them into groups by their color?

- **Day 4**

Go on a counting spree! Count the number of people, pets, windows, and doors in your house. Then help your child practice writing the numbers he/she counts.
