

Product Proofing - Two Easy Options

Select the Proofing option that best suits your circumstances and comfort level to provide input, required changes, and approval **within ONE WEEK** of the date received. When complete, please contact your Lifetouch Representative: Kathryn Gentner, kathryn.gentner@lifetouch.com

OPTION #1: Digital File Management & Proofing using Adobe Acrobat software*

OPTION #2: "Traditional Processing" Managing Printed Proofs & manual mark-up

* FREE download of Acrobat Reader from <https://get.adobe.com/reader/>

1. Download, rename and save the file to a local desktop or network location, using a **SchoolName_Composite Verify** file name convention.
2. Mark-up, and approve the proof copy using the **Quality Guidelines**, below.
3. Apply the edits and markup using the *Quick Tools* in the Adobe Reader control ribbon:
 - Click the tool, then click on the page and apply the tool where the correction/comment is needed.
 - **SAVE** all Changes!

IMPORTANT: The *Quick*

 *Tools* are only available when the PDF file is opened using the Adobe Acrobat desktop application (not in a Browser). *Right-click* on the file on the desktop or from File Explorer view, and use the *Open With* command.

1. Download the file.
2. Print the entire document.
3. Distribute to each teacher the proof for their classroom.
4. Request Teachers review, mark-up, and approve and return the proof copy using the **Quality Guidelines**, below.
 -  All markups must be clear and legible; unreadable feedback will delay processing.
5. Collect the distributed, corrected/approved proofs from each Teacher or Administrator.
6. After verifying that all pages are returned, scan all pages and upload to the Lifetouch Portal. Follow the instructions below under "Returning the Proof" for more information.
 - Consolidate all pages into a single digital PDF file. Name the file using **SchoolName_Composite Verify** file name convention.

Quality Guidelines

- **Name Match** - Verify that all name captions match the image shown.
- **Name Spelling** - Verify the spelling of student and staff names.
- **Groupings** - Verify the correct students are pictured with the class.
- **Title and Captions** - Verify that all titles and captions are accurate.

Approvals

Your order is on hold until approval is received. Delays in the review & approval process will affect timely delivery of the Class Picture to the school and families. These delays can compromise design, production and expected delivery dates for yearbooks (if Lifetouch is producing the Yearbook).

Returning the Proof

 When review & approval is complete, upload the file to Lifetouch Portal (Portal.Lifetouch.com for US, Portal.Lifetouch.ca for Canada) under *Picture Day Resources*. Click **Upload Now** for secure sharing with your Lifetouch Support Team. **IMPORTANT:** for data privacy and security reasons DO NOT EMAIL the file!

Best Practice: communicate a date by which mark-up and approval are due back from Teachers. A tight deadline drives more prompt action that helps move the process with less need for reminders and follow-ups from the coordinator.
