We are excited to offer literacy and math nights to our parents and students this fall. Parents will have the opportunity to learn about the new LDOE literacy plan, end of year literacy and math goals by grade level, and how to support your students at home with their individual literacy and math needs. Students will rotate through learning stations and be able to take home some helpful activities to support their at home learning.

We need you to confirm your attendance in order to have sufficient copies and activities prepared for our literacy and math nights.

Please complete the form below and return to your child's homeroom teacher before Friday, October 6, 2023.
